Both our website and catalog are available in Spanish.

SAME DAY SHIPPING!

Chemtex offers same day shipping if your order is in by 1:00 pm eastern standard time. In an emergency spill situation, Chemtex will accommodate you no matter what time it is.

Why buy from Chemtex?

- 1 One call for all of your spill control needs.** Whether you are in the market for sorbents, wipers, secondary containment, or PPE, Chemtex inventories all of the above and more!
- 2 Outstanding customer service.** We have a friendly, knowledgeable staff that will answer your call in the first two rings and, even better, you will get a human being rather than an automated system.
- 3 Ninety-five percent of our orders will ship within 24 hours.** If we get your order before 1 pm est, your order will ship same day, providing it is an inventoried item.
- 4 We offer service 24 hours a day, 7 days a week.** Oil spills don't punch a time clock. Therefore, you can reach a Chemtex employee any day of the week, any time of the day.
- 5 Easy account set-up.** Most accounts are set up with in 48 hours. Should you prefer credit cards, we accept all major cards such as Visa, Mastercard, and American Express.
- 6 Spill Response Trailers are available** to be left on job sites. If you are without storage on a job site while working on an oil spill, use one of our spill response trailers for extra convenience.
- 7 Chemtex Guarantee.** We guarantee our quality on all orders. Should you have any problems with an order, Chemtex will replace or refund your order 100%.

Check out our website at www.chemtexinc.com. Here you will find...

7 STEPS FOR SPILL RESPONSE

1. Assess the Risk.

Before you attempt to clean up a spill, make sure you are taking into account everything that might be affected by that spill. Look at the risks to human health, the environment, and property. If possible, identify the spilled material and determine how much has spilled. Use the container's label or the Material Safety Data Sheet (MSDS) to identify the liquid and the primary dangers posed to spill responders and the environment.

2. Select Personal Protective Equipment.

Choose the appropriate PPE to safely respond to the spill. This could include goggles, gloves, or respirators. Check the MSDS and literature on the chemical spilled for best PPE recommendations. If you are uncertain of the danger or if the spilled material is unknown, assume the worst and use the highest level of protection.

3. Confine the Spill — Speed Counts!

Limit the spill area by blocking, diverting, or confining the spill. Stop the spread of liquid before it has a chance to contaminate a water source. Spill kits are designed to facilitate a quick, effective response. Nonabsorbent barriers such as containment booms, drain covers, and spill berms are also available to confine liquids, minimize the spill area, and protect drains.

4. Stop the Source.

After the spill is confined, stop the source of the spill. This may involve simply turning a container upright, closing a valve, or plugging a leak from a damaged drum or container. Be sure to transfer liquids from the damaged container to a new one.

5. Evaluate Incident/Implement Cleanup.

Once the spill is confined and the source has been stopped, it is time to develop a plan of action for implementing the spill cleanup. Simply place absorbents that are chemically compatible with the liquid spilled throughout the spill area. Once the absorbents are saturated, they should be disposed properly. Sorbents do not render liquids nonflammable, neutral, or less hazardous and will take on the characteristics/properties of whatever

liquid is absorbed. Therefore, all measures must be taken as if you were handling the liquid itself. Sorbents do not make the liquid less hazardous. Always refer to the MSDS for the chemical absorbed before proceeding.

6. Decontaminate.

Decontaminate the site, personnel, and equipment by removing or neutralizing the hazardous materials that have accumulated during the spill. This may involve removing and disposing of contaminated media, such as earth, that was exposed during the spill incident. An effective decontamination area ensures the health and safety of emergency responders.

7. Complete Required Reports.

Complete all notifications and reporting required by local, state, and federal guidelines for reporting spill incidents. Failure to do so can result in severe penalties! Necessary reports can include: medical record reports, company incident reports, Local Emergency Planning Commission reports, or National Response Center reports.

SORBENTS: CLAY VS POLY

Are you still using clay to clean your leaks, drips, and spills? You may think you're saving money because the cost of a bag of clay is so cheap, but in reality you are spending more—a lot more! In addition to the financial savings that we list below, these are a few other reasons why not to use clay:

- Clay is very messy, and cleanup is difficult and labor-intensive.
- Clay is an abrasive, which causes damage to machinery and moving parts.
- Silica is considered a serious health hazard by OSHA.
- Clay is heavy to work with compared to polypropylene pads.
- Clay is not a good absorbent.

To learn more details about clay vs. polypropylene, please call our office at (877) 431-0200 and ask to speak with a customer service representative.

CLAY MINERAL

boom XT

Designed and built to last!

Are you using sorbent boom near rocky shoreline?

Does the tide go out and leave your boom lying high and dry on a rocky bottom? Rocks and barnacles will rip and tear standard sorbent booms and cause the shredded polypropylene to release, making more of a mess than when you started. Introducing the Boom XT—the Boom XT is made from HDPE netting, which is a lot stronger than traditional boom nets. The HDPE netting also is UV-treated to protect the polypropylene from the sun's damaging UV rays. If you are working in harsh marine environments, you need Boom XT.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
B5XT	5" x 10', Lint-free	35 gallons/bale	4 booms/bale
B8XT	8" x 10', Lint-free	65 gallons/bale	4 booms/bale

polypropylene wipers

Polypropylene wipers are designed for wiping tasks where low lint or use of chemicals is required. Made for critical applications involving solvents, inks, and paints. Acid/base and solvent-resistant. Perfect for use with lubricants, oil, and grease.

Applications include: furniture finishing, engine assembly/repair, pre-packaging wipe-down, LCD panel assembly, appliance assembly, printing, and glass or window cleaning.

PART #	SIZE & DESCRIPTION	PUT-UP	PACKAGING
NWP395	9" x 17" Polypropylene Wipers	100 wipers/box	5 boxes/case

spill bucket socks

Water in your spill bucket?
Avoid costly pump-outs by
removing water from your bucket.

Spill bucket socks remove water quickly and easily. They will not absorb fuel. Sock swells on contact with water and will absorb up to .8 gallons/sock. Reduces phase separation and costly pump-outs. This speeds fuel deliveries. Can be hung to dry and reused.

Socks before and after use.

PART #	DESCRIPTION	ABSORBS	PACKAGING
OILM7369	Spill Bucket Socks	.8 gallons	10 socks/case

H2O dams

Compact “sandless”
sand bags

“Sandless” sand bags are compact and lightweight for storing, but will grow to 32 lbs. in times of need. Just add water and watch them grow. Contains super-absorbing polymers that will swell and gel with water. Contents are nontoxic, nonhazardous, and biodegradable. Stagger multiple bags to build a retaining wall.

- No sand or labor needed
- Ready to use
- No mess
- Easy to carry several at a time

PART #	DESCRIPTION	SIZE	PACKAGING
OILM7368	H2O Dam	12" x 24"	12/case

eco friendly 95 gallon spill kit

Be prepared for fast response while helping maintain a greener workplace! The eco-friendly overpack is constructed of 100% recycled polyethylene and packed with eco-friendly airlaid pads, as well as eco-friendly socks and pillows made with 100% recycled filler.

Kit Contents:

1 95-gallon Overpack	8 Pillows (18" x 18")
100 Pads (15" x 19")	3 Disposal Bags w/Ties
12 Socks (3" x 4')	1 Pair Nitrile Gloves
8 Socks (3" x 12')	1 Emergency Response Guidebook

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
KIT1030	Oil-only	73 gallons	1
KIT1031	Universal	73 gallons	1

14 gallon spill kit

Kit Contents:

1 14-gallon Lab Pack
10 Pads (15" x 19")
1 Sock (3" x 4')
2 Socks (3" x 8')
1 Bag of Universal Granular Absorbent
2 Disposal Bags w/Ties

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
SPK14-O	Oil-only	9 gallons	1
SPK14-U	Universal	9 gallons	1

spill kit in high visibility bag

- Durable, water-resistant bag with zipper closure
- Temporary disposal bags help make cleanup easier
- Bright yellow bag makes the kit easy to locate
- Strap for easy carrying and hanging
- Compact and easy to store — makes a great truck spill kit

Kit Contents:

Yellow Carrying Bag	2 Disposal Bags w/Ties
10 Pads (15" x 19")	1 Pair Nitrile Gloves
3 Socks (3" x 4')	

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
OILM7026	Oil-only	5 gallons	1
OILM7027	Universal	5 gallons	1

spill containment trays

Spill trays are made of 100% post-industrial recycled polyethylene. They are ideal for catching drips and leaks from small equipment, vehicle batteries, or pouring and filling activities. Lightweight and durable, these HDPE spill trays have excellent chemical resistance.

PART #	DESCRIPTION	WEIGHT	CONTAINS
OIL745	Spill Tray, 46" x 16" x 5.5"	4 lbs.	12 gallons
OIL746	Spill Tray, 38" x 26" x 5.5"	5 lbs.	20 gallons
OIL747	Spill Tray, 47" x 33" x 5.5"	8 lbs.	29 gallons

rugged steel spill pallets

Steel pallets constructed of 11-gauge, hot-rolled steel.

Galvanized steel bar grating keeps drums out of overflow and removes for easy cleaning. Large fork-lift pockets in front and back make relocation easy. Hot-dipped galvanized after fabrication for greater protection against rust and corrosion.

PART #	DESCRIPTION	WEIGHT	CONTAINS	LOAD BEARING
CON1011	2 Drum Pallet, 47.25" x 31.5" x 16.3125"	165 lbs.	72 gallons	1,200 lbs.
CON1012	4 Drum Pallet, 47.25" x 47.25" x 13.0625"	215 lbs.	77 gallons	2,400 lbs.

Steel pallets drop ship from manufacturer.

poly drum funnel w/hinged lid

Durable polyethylene drum funnel resists rust, corrosion, and most chemicals. Lid is attached by hinge to allow for easy use.

PART #	DESCRIPTION	CONTAINS	WEIGHT
CON0209	Poly Drum Funnel w/Attached Lid, 26.5" diameter	5 gallons	15 lbs.

steel drum funnel

10.75" diameter, 10" height, fits into 2" Drum Bung, 6" Brass Flame Arrestor

- Easy pouring during liquid waste collection
- Wide-mouth opening with hinged, stay-open lid
- Built-in flame arrestor on most models to prevent fire intrusion
- Self-closing in case of fire

These funnels offer superior safety features that make them ideal for use with solvent, thinner, oil, and paint wastes. Heavy 18-gauge galvanized steel with electrostatically applied epoxy powder coat paint provides durability and chemical resistance. Larger funnels accept a lock to prevent unauthorized access. Funnels intended for use with flammables are fitted with a brass flame arrestor that absorbs and dissipates heat, preventing any external ignition source (like sparks from power tools, static electricity, or cigarettes) from reaching the drum's flammable contents.

PART #	DESCRIPTION	WEIGHT
CON0173	Large Steel Funnel with Self-closing Cover	10 lbs.

ALL-PURPOSE WIPERS

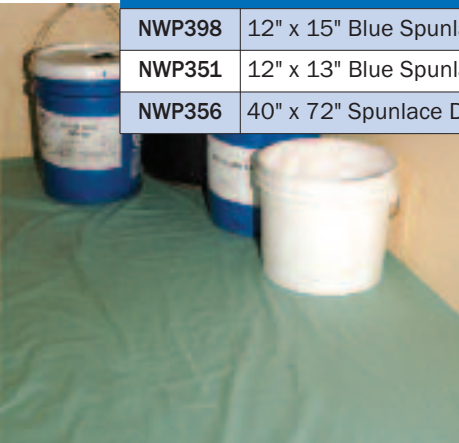

blue spunlace wipers

Exceptionally clean, low-linting, absorbent, strong, and durable wiping product. Soaks up to four times its weight in water; also absorbs oil and solvents. Washes easily. Can be reused again and again, yet is inexpensive enough to be disposable. Available in quarter fold or on a roll.

HEAVY-DUTY WIPERS

PART #	SIZE & DESCRIPTION	PUT-UP	APPLICATION
NWP398	12" x 15" Blue Spunlace, Wiper	440/roll	heavy duty
NWP351	12" x 13" Blue Spunlace, 1/4 Fold, Wiper	1,000/case	heavy duty
NWP356	40" x 72" Spunlace Disposable Drop Cloths	72/case	heavy duty

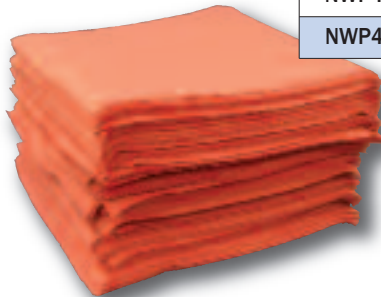

red spunlace wipers

Thick, cloth-like wipers. Ideal for rough surfaces, metal shavings, machine and parts wiping, and prepping surfaces with solvents.

PART #	SIZE & DESCRIPTION	PUT-UP	APPLICATION
NWP400	13" x 14" Red Spunlace, Flatlay, Wiper	500/case	heavy duty
NWP401	13" x 20" Red Spunlace, Flatlay, Wiper	500/case	heavy duty

Great replacement for rented shop rags.

white spunlace wipers

Thick, cloth-like wipers. Ideal for rough surfaces, metal shavings, machine and parts wiping, and prepping surfaces with solvents.

PART #	SIZE & DESCRIPTION	PUT-UP	APPLICATION
NWP402	13" x 14" White Spunlace, Flatlay, Wiper	500/case	heavy duty

NWP380	13" x 12" White Spunlace, Wiper	475' roll	heavy duty

ALL-PURPOSE WIPERS

airlay wipers

These wipers are ideal for oil and grease spills, smooth surfaces, and maintenance.

PART #	SIZE & DESCRIPTION	PUT-UP	APPLICATION
NWP101	12" x 13" Oil-only Airlay, Poly 1/4 Fold	16 packs of 50	medium duty

**MEDIUM-DUTY
WIPERS**

all-purpose DRC wetlay wipers

Ideal for wiping up grease, oils, and small spills, or for cleaning parts and tools; soft enough for hands and face.

PART #	SIZE & DESCRIPTION	PUT-UP	APPLICATION
NWP02311	9" x 15" All-purpose Wetlay, Pop-up	8 boxes of 100	medium duty
NWP0252	9" x 240' Center-pull Wetlay in Box	9 boxes/case	medium duty
NWP026	12.5" x 13.5" All-purpose Wetlay, 1/4 Fold	20 packs of 50	medium duty

scrim wipers

Pop-Up Box. Low-linting wipers are ideal for windows, smooth surfaces, and general cleanups.

PART #	SIZE & DESCRIPTION	PUT-UP	APPLICATION
NWP250	10.5" x 12" White Scrim, Pop-up Box	6 boxes of 150	medium duty

UNIVERSAL/MAINTENANCE SORBENTS

fine fiber meltblown pads and rolls

Dark gray pads hide grime, which makes pads last longer. Low-linting sorbents are used where added strength is a must. The smooth, fine fiber surface adds the strength needed for high-traffic areas. Using small-diameter strands of fiber increases surface area, which enables pads and rolls to grip surfaces securely. Both pads and rolls are used to contain and absorb splashes and spills under and around machinery.

UNIVERSAL/MAINTENANCE SORBENTS

For industrial and automotive applications. Absorbs oil, water, and most nonaggressive fluids.

BETTER QUALITY

bonded meltblown pads and rolls

DURABLE
MULTI-PERFORATIONS
HELP YOU
USE LESS AND
SAVE MONEY.

Bonded pads and rolls share the same features as our standard meltblown, plus an extra layer of spunbond polypropylene. The bonding process adds increased strength and lower lint. They help provide a cleaner and safer working environment.

EARTH FRIENDLY ABSORBENTS

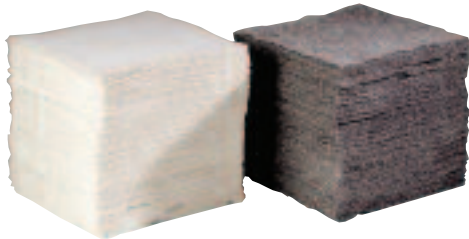

ECO-SOP™ — Saving our planet with “earth friendly” absorbents gone green.

To help save our planet, we all need to contribute. Now more than ever, we need to consider using recycled products when at all possible. We also need to cut back on our use of petroleum and petroleum-based products. Using Eco-Sop™ Sorbents will do just that. Unlike traditional meltblown polypropylene pads and rolls, these sorbents are not made from petroleum. This will not only help save our environment, but will help to keep the cost down. These products are made using 95% American-grown, natural, renewable, and recycled resources. Additives increase the sorbents' natural absorbency. Testing based on ASTM Standard 726 proves this pad to be 20% more absorbent than meltblown polypropylene sorbents.

Natural White - Oil-Only — Absorbs up to 20% more than polypropylene; will not absorb water.

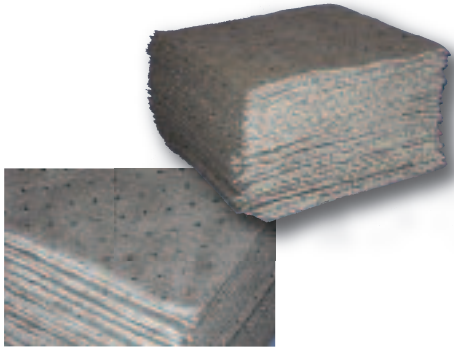

Gray - Universal — Absorbs up to 20% more than polypropylene; absorbs oil, water, and water-based chemicals.

PART #	DESCRIPTION	QTY/BALE	QTY/PALLET
NATURAL WHITE - OIL-ONLY			
OILM1082	Heavy Weight Pads, 16" x 18"	100	36
OILM1083	Medium Weight Pads, 16" x 18"	100	42

OILM1093	Heavy Weight Roll, 28" x 150'	1	27

cellulose pads and rolls (general purpose)

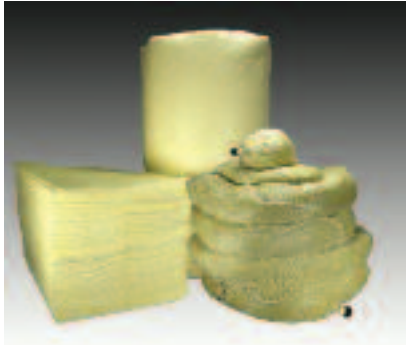

Cellulose-based absorbents are an excellent choice for superior absorption. Rolls are reinforced with a top liner for increased durability. Used to clean all types of nonaggressive spills.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
OILM1080	General Purpose Pads, 16" x 18"	41 gallons	100/box
OILM5002	General Purpose Roll, 36" x 150'	83 gallons	1 roll

hazmat sorbents

Ideal for responding to spills with unknown liquids. These pads and rolls will absorb virtually all acid and base liquids. These products are quickly deployed and recovered in hazardous spill applications. Use booms to confine large spills.

army matting

The **camouflage design** makes leaks and drips disappear. Lasts longer than the standard gray and white meltblown rolls. This allows you to leave it on the ground for longer lengths of time, which will cut back on your spending. A spunbond top sheet provides extra strength and durability. The bottom layer of fine fiber meltblown grips the floor and provides a safe, secure walkway. Multiple perforations allow you to tear off and use only what you need.

HIDES LIQUIDS,
LASTS LONGER

PART #	DESCRIPTION	ABSORBS	PACKAGING
OILM6012	Army Mat Roll, 30" x 150'	36 gallons	1/roll
OILM6013	Army Mat Pad, 15" x 18"	30 gallons/bale	100/bale

NEW

camouflage socks & pillows

Camouflage socks and pillows are filled with chopped, recycled textile and cellulose waste. As these sorbents become saturated, the camo pattern hides fluid stains. This allows you to use sorbents longer, which in turn saves you money. The package dimensions for both products make small parcel shipments economical.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
S4CF	3" x 4'	15 gallons	15/case
1818-CF	18" x 18"	17 gallons	10/case

SPECIALTY SORBENTS

all-in-one sorbent matting

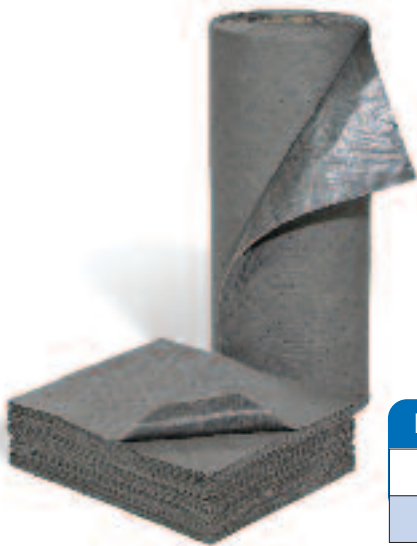

Versatile, all-in-one matting can be used as a pad, a sock, or a roll. One product is all you need. Comes packed in a handy dispenser box which can be stored anywhere for easy access. Available in both oil-only and universal.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
OILM1057	15" x 100', All-in-One Sorbent Matting, Universal	19 gallons	1
OILM1067	15" x 100', All-in-One Sorbent Matting, Oil-only	19 gallons	1

poly-backed pads and rolls

Added protection for your floors. The strength and absorbency of fine fiber pads and rolls, combined with a nonskid poly backing to prevent liquids from seeping through to the floor.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
PBFFP12G	15" x 19", Double Wt. Pads	8 gallons	50/bale
PBFFR12G	30" x 100', Double Wt. Rolls	18 gallons	1 roll

MARINE SPILL RESPONSE

Oil Snare™

Oil Snare will typically recover from 20 to 60 times its own weight, depending on the viscosity of the oil. The thicker the oil, the better Oil Snare adsorbent will work.

Oil Snare™ products were developed for the recovery of Bunker C, Crude Oil, and Numbers 4, 5, & 6 oil. Oil Snare utilizes the oil's natural stickiness to entrap it within thousands of plastic tentacles. Operative even in subfreezing conditions. Oil Snare products are made up of flat polypropylene ribbon yarn configured into two different products (Oil Snare Singles, Oil Snare on a Rope).

TYPICAL RECOVERY RATES

(Lbs. of oil per lb. of Oil Snare adsorbent)

#6 oil - 64 lbs. @ 35 °F

#6 oil - 32 lbs. @ 70 °F

#5 oil - 24 lbs. @ 70 °F

#5 oil - 16 lbs. @ 82 °F

#4 oil - 18 lbs. @ 65 °F

Alaskan crude - 40 lbs. @ -2 °F

Oil Snare is hydrophobic, oleophilic, nontoxic or corrosive, non-scattering, inert, floats (will not sink) indefinitely. Oil Snare is resistant to rot and mildew after long storage and does not have a shelf life. Oil Snare products can be drained or doused with #1 or #2 oil which removes the heavy oils, allowing units to be reused if desired, and allowing recycling of extracted oil as downgraded fuel.

PART #	DESCRIPTION	WEIGHT
OILM6050	Oil Snare Singles, 30/bag	15 lbs.
OILM6052	Oil Snare on a Rope, 30/50' rope	16 lbs.

skimmers **NEW**

Skim-pak weir-type skimmers are simply the best skimmers money can buy. Skim-paks are lightweight and compact, easily deployed and operated by one person. The weir automatically adjusts to the pump rate, continually maintaining a skim. Skim-pak skimmers can be set up for unattended operation or fitted with an operator control accessory package.

Drum Skimmers

are constructed of lightweight aluminum and are designed for both portability and extreme durability on the toughest jobs. Available in 24", 36", and 48" versions. Single or multiple drum designs are also available. Ideal for use on inland and marsh spills since it is capable of operating at water depths as shallow as 3". Recovery rates of up to 35 gallons per minute.

Call our office for further details on skimmers.

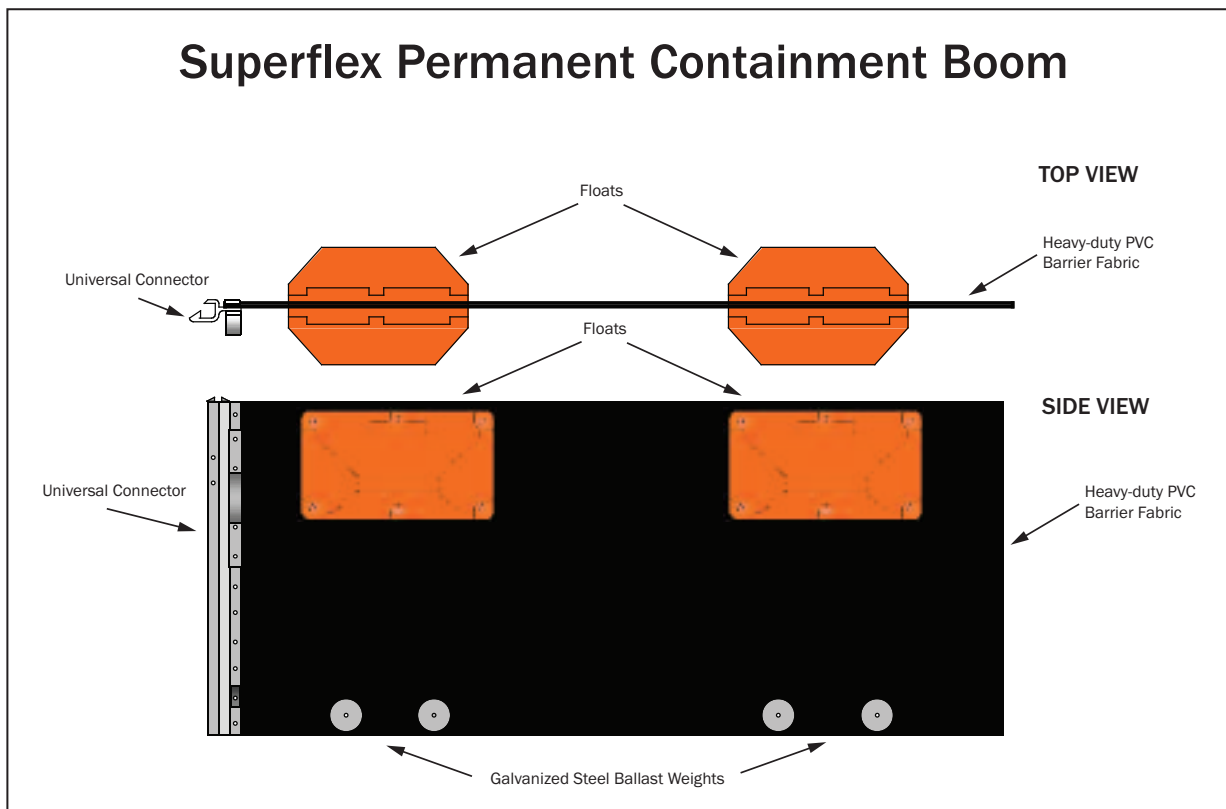

CONTAINMENT BOOMS

permanent containment boom

The **economical solution** to provide continuous facility protection and containment. This permanent boom system features easy deployment, high visibility, and abrasion resistance. Permanent containment booms are designed for deployment at permanent sites such as waterfront oil handling facilities, or around ships in repair or storage. This containment boom is more economical, lighter weight per foot, and has a higher buoyancy-to-weight ratio than other permanent booms.

PART #	DESCRIPTION	SIZE
OILM092	18" Permanent Boom, Universal Connectors, 175 oz PVC	18" x 100'
OILM094	18" Permanent Boom, Universal Connectors, 175 oz PVC	18" x 50'
OILM262	24" Permanent Boom, Universal Connectors, 175 oz PVC	24" x 100'
OILM263	24" Permanent Boom, Universal Connectors, 175 oz PVC	24" x 50'

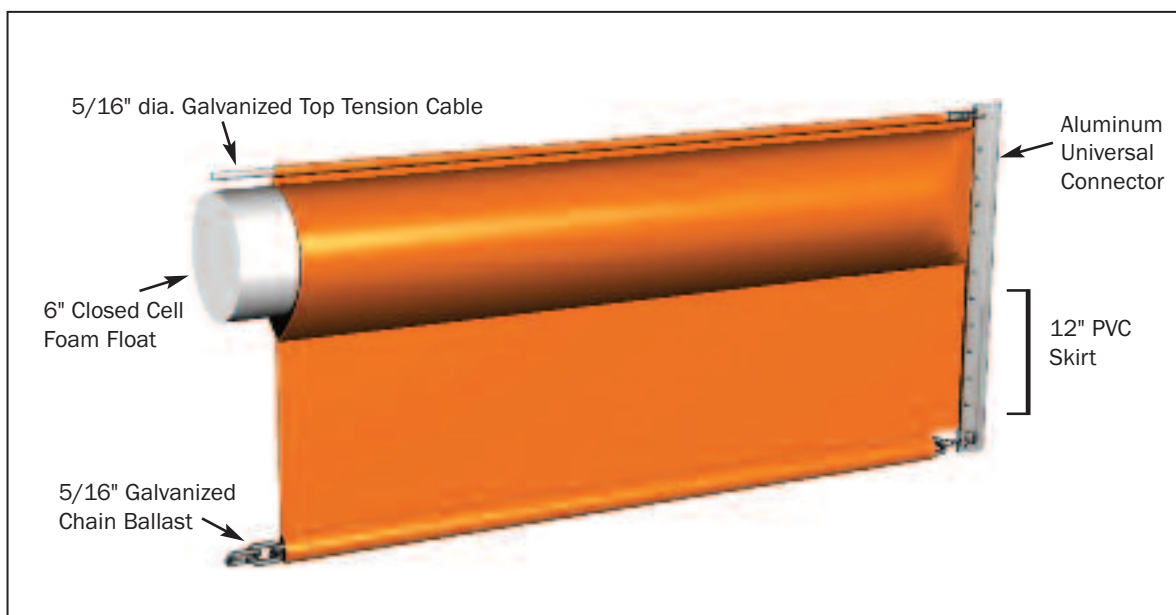

CONTAINMENT BOOMS

response boom

Use containment booms to surround and contain oil or sewage spills. Also used to retain debris. Can be used in fresh or salt water. Ideal for holding ponds, marinas, or spill response teams.

PART #	DESCRIPTION	SIZE
OILM099	6" Float, 12" Skirt, Universal Connectors, with Top Tension Cable	18" x 100'
OILM097	6" Float, 12" Skirt, Universal Connectors, with Top Tension Cable	18" x 50'
OILM100	6" Float, 12" Skirt, Universal Connectors	18" x 100'
OILM200	3" Float, 5" Skirt, Slotted Tube Connectors	8" x 100'

BOOM ACCESSORIES

Containment Boom Accessories

bulkhead risers

Bulkhead risers are used to allow your containment booms to rise and fall with the tide. Fiberglass bulkhead riser with floats and connectors for 6" flange H beam. Easily mounted on docks or piers.

PART #	DESCRIPTION
OILM259	Bulkhead Riser

Danforth® anchors

Danforth® anchors are used to secure booms to the ocean floor. This anchor has the traditional holding power which has always been associated with Danforth® anchors. The shank is made of high-strength steel. The steel flukes are strong and wide. Each anchor has a hot-dipped, galvanized coating for long-lasting protection.

PART #	DESCRIPTION
OILM090	22 lb. Danforth® Anchor

anchor chain

Anchor Chain Our 3/8" chain is used to secure boom anchoring systems. Strengthens anchor hold and eliminates fouled anchor lines. Galvanized, oil-proof chain comes packed as 63' of chain in a 5-gallon bucket.

PART #	DESCRIPTION
OILM087	3/8" Anchor Chain, holds up to 6,600 lbs.

galvanized shackles

Galvanized shackles are used to connect anchors to chain.

PART #	DESCRIPTION
OILM089	3/8" Screw Pin, Galvanized Shackles

polyform anchor buoys

Polyform anchor buoys are a one-piece construction with a reinforced, rigid "rope hold" eye and unique vinyl valving system. Applications include commercial fishing, offshore oil research, and general commercial marine. Use the buoys with your containment boom anchoring system.

PART #	DESCRIPTION
OILM088	Polyform Anchor Buoys, A-O Red

polypropylene line

Polypropylene line is strong and resistant to mildew, rot, and most chemicals. Use this in your containment boom anchoring system.

PART #	DESCRIPTION
OIL753	Polypropylene Line, 1/2" x 600', 3-Strand Twisted Rope

SORBENT RUGS

Durable universal sorbent rugs are used in high-traffic areas and work stations.

needle-punch

Constructed of 100% polypropylene, this rug is made to withstand constant foot and forklift traffic. Will absorb oil, water, coolants, and solvents. Also used in decontamination areas on job sites.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
RNP	36" x 300'; Needle-punch Rug, Black	64 gallons/rug	1 rug
OILM6004	36" x 150'; Needle-punch Rug, Gray	64 gallons/rug	1 rug

poly-backed needle-punch

These are needle-punch rugs that are coated with an impermeable, nonskid backing. This prevents liquids from seeping through to the floor.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
PBRNP	36" x 100'; Polyback Needle-punch Rug	16 gallons/rug	1 rug

rag rug pads and rolls

This rug is made from recycled textiles and is very thick and durable. Dark-colored mats absorb the grunge from oils, coolants, solvents, and water without looking dirty. The tough, durable rag rug is ideal for use in high-traffic areas.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
RTR-1	36" x 150'; Rag Rug	50 gallons/rug	1 rug
OILM6016	18" x 18", Rag Rug Pads	25 gallons/bale	100 pads

SORBENT MATTING

railroad track matting

Railroad Track Mat — 3-Ply: 1 layer needle-punch polypropylene, 1 layer oil-only meltblown polypropylene, and a poly backing to prevent seepage. Use the two 19" rolls outside the tracks and the 59" roll in between the rails. Can be used to absorb oil, fuels, and other hydrocarbon-based fuels in railroad yards.

PART #	DESCRIPTION	ABSORBS	PACKAGING
OILM5997	RR Track Mats, 19" x 100', Outside Pieces	50 gallons	2/pack
OILM5996	RR Track Mat, 59" x 100', Center Pieces	60 gallons	1 roll

blue railroad track matting

PART #	DESCRIPTION	ABSORBS	PACKAGING
OILM5999	RR Track Mats, Blue, 19" x 80', Outside Pieces	31.5 gallons	2/pack
OILM5998	RR Track Mat, Blue, 58" x 80', Center Pieces	48 gallons	1 roll

economical track matting

The **econo version of the track mat** is made from a lighter weight, spunbound polypropylene and uses bonded poly-sheeting as a barrier. It's an inexpensive alternative to our standard track mat.

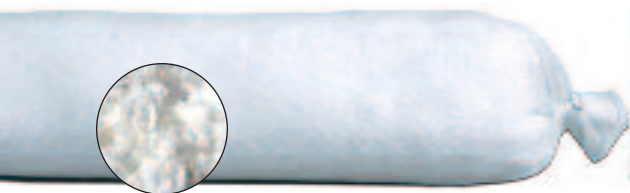

PART #	DESCRIPTION	ABSORBS	PACKAGING
OILM5992	Econo Track Mat, 57" x 100'	86 gallons	1/roll
OILM5991	Econo Track Mat, 19" x 100'	58 gallons	2/pack

SORBENT SOCKS

For Quick and Easy Containment

oil-only

These socks will not absorb water or water-based liquids. Highly absorbent and dust-free, these socks help keep a clean and safe working environment. Use these socks outdoors if needed.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
S4B	3" x 4'	30 gallons/case	30 socks/case
S4B-10	3" x 4'	10 gallons/case	10 socks/case
S8B	3" x 8'	30 gallons/case	15 socks/case
S12B	3" x 12'	30 gallons/case	10 socks/case
S20B	3" x 20'	30 gallons/case	6 socks/case

universal/maintenance

Our most versatile sock, specially treated to absorb most aggressive and nonaggressive liquids. These socks can be used to absorb acids and bases, as well as oil and water. One sock does it all.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
S4G	3" x 4'	30 gallons/case	30 socks/case
S8G	3" x 8'	30 gallons/case	15 socks/case
S12G	3" x 12'	30 gallons/case	10 socks/case
S20G	3" x 20'	30 gallons/case	6 socks/case

corncob

This is an excellent sock at a great value. Corn cob filler makes the socks highly flexible and easily moldable around tight corners. These socks will not absorb aggressive fluids.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
S4CC	3" x 42"	20 gallons/case	40/case

universal cellulose

Highly absorbent, this is an all-purpose maintenance sock suitable for most industrial applications. This sock is not intended for aggressive fluids.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
S4UC	3" x 4'	33 gallons/case	30/case
S8UC	3" x 8'	33 gallons/case	15/case

SORBENT SOCKS

Sturdy, absorbent socks are used to absorb and contain spills around machines or drums. Wrap socks around machinery to act as a dike. Also use socks to surround the spill, preventing liquids from spreading over the plant floor or down drains. These products are available in many types and sizes. Choose the right one for your application.

cellulose polymer blend

This sturdy, absorbent sock, filled with a combination of cellulose and super-absorbent polymers, will soak up water and water-based liquids faster than any other sock. This sock also retains fluids better than any other sock.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
S4CPB	3" x 4'	30 gallons/case	30/case

hazmat

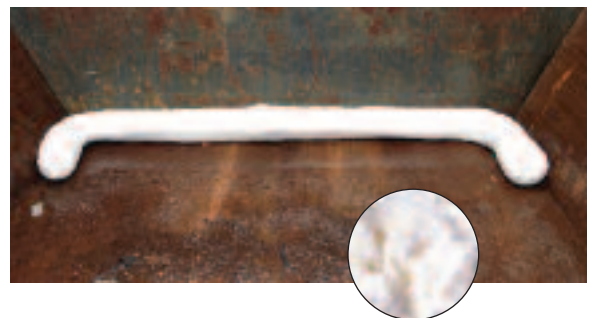

Use hazmat socks for caustic fluids or fluids of an unknown origin. These 100% polypropylene socks soak up nearly any acid, base, or solvent. Color-coded, so you know what to expect when you see them being used.

PART	DESCRIPTION	SORBENT CAPACITY	PACKAGING
S4Y	3" x 4'	30 gallons/case	30/case
S4Y-10	3" x 4'	10 gallons/case	10/case
S8Y	3" x 8'	30 gallons/case	15/case

roll-off super socks

These super-absorbent socks are made with a blend of recycled cellulose and SAP (super-absorbent polymer). The SAP will lock the water in place so no leaching will occur. Best used in the tail end of roll-off containers or dump trucks to prevent leakage while on the road.

PART	DESCRIPTION	SORBENT CAPACITY	PACKAGING
S7CPB	7" x 8'	41 gallons/bale	5/bale

SPECIALTY SOCKS

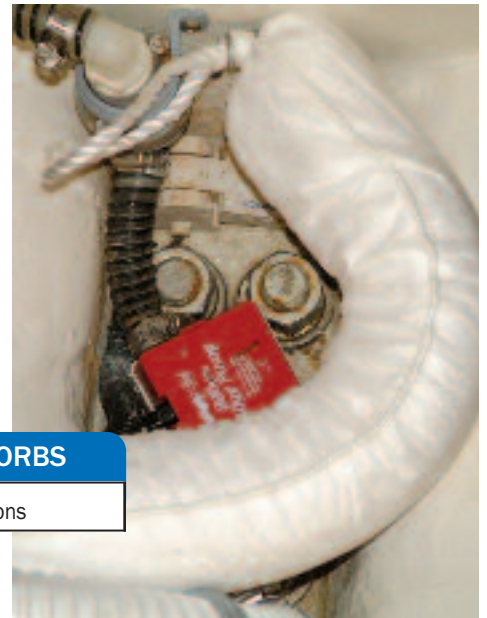

well sock

Designed specifically for absorbing hydrocarbons from wells. The 1½" diameter and the loop-on end allow for easy lowering and retrieving from monitoring wells.

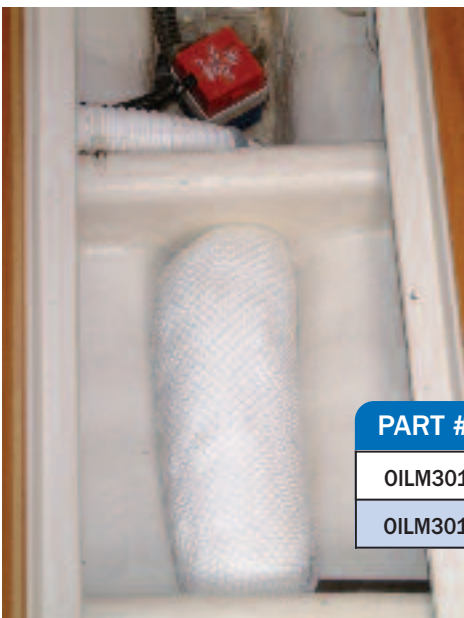

PART #	DESCRIPTION	SIZE	PACKAGING	ABSORBS
OILM206	Well Socks	1.5" x 2'	20/case	5.5 gallons

bilge socks

Prevent costly fines from oil discharge into navigable waters. Bilge socks prevent pollution by absorbing the oil, gasoline, and diesel that can accumulate in the bilge of a boat. Most boats are expected to require one or two bilge socks during each boating season to capture oil and fuel leaking into their bilge compartments.

PART #	DESCRIPTION	SIZE	PACKAGING	ABSORBS
OIL450	Bilge Socks	3" x 18"	20/case	8 gallons

bilge booms (mini booms)

For use in boat bilges of all sizes. Use the 8" x 18" in commercial size boats and the 5" x 15" in smaller pleasure crafts. Like the smaller bilge sock, these highly absorbent mini booms will help prevent pollution of our marine waters. Booms will absorb oils and fuels and will float on water.

PART #	DESCRIPTION	SIZE	PACKAGING	ABSORBS
OILM3017	Mini Boom	5" x 15"	12/case	12 gallons
OILM3019	Mini Boom	8" x 18"	10/bale	28 gallons

SORBENT PILLOWS

pillows

Used to absorb large amounts of fluids where a pad just isn't enough. Also good to use in tight, hard-to-reach areas. Use oil-only pillows on both land and water. Great in coolant tanks and sump wells. Use our universal pillows for all liquids including acids and bases.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING	ABSORBS
915-0	9" x 15"	17 gallons/case	16/case	oil-only
1818-0	18" x 18"	28 gallons/case	16/case	oil-only
1824-0	18" x 24"	30 gallons/case	15/case	oil-only
915-U	9" x 15"	17 gallons/case	16/case	universal/hazmat
1818-U	18" x 18"	28 gallons/case	16/case	universal/hazmat
1824-U	18" x 24"	30 gallons/case	15/case	universal/hazmat

mesh bag pillow

Polypropylene strips encased in a nylon mesh bag. Used to absorb larger spills on water. Just toss it on the spill. Floats for easy retrieval, even when saturated.

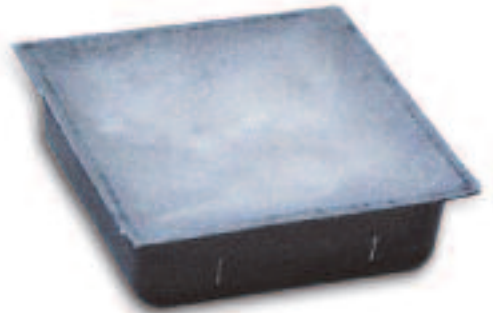

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
OILM3598	Mesh Bag Pillow, 14" x 24"	37 gallons	10/bale

SORBENT ACCESSORIES

drip pans

Low profile, easy to fit in tight spaces where leaking spigots are a problem. When full, tray will hold up to three-quarters of a gallon. Available in universal only.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING	ABSORBS
DP-U	Drip Pans, 10.5" x 10.5" x 3"	12 gallons/case	16/case	universal
D22-O	Drum Tops, 22" diameter	7 gallons/bale	25/bale	oil-only
D22-U	Drum Tops, 22" diameter	7 gallons/bale	25/bale	universal
DL22-O	Lt. Wt. Drum Tops, 22" diameter	3.5 gallons/bale	25/bale	oil-only
DL22-U	Lt. Wt. Drum Tops, 22" diameter	3.5 gallons/bale	25/bale	universal
PT-O	Shredded Particulate	35 gallons/bale	1 box	oil-only
OILM5005	Sorbent Roll Rack. Rack fits rolls up to 32" in width.			

drum tops

Keep your drum containment area neat and clean with pre-cut 55-gallon drum tops. Available in both oil-only and universal.

particulate

Chopped polypropylene can be used on both land and water. A dust-free alternative to clay.

roll rack

This freestanding roll rack keeps rolls off messy floors for easy access when you need them. Fits any roll up to 32" wide.

SPILL KITS

Nobody wants an oil spill; however, accidents do happen. Don't be caught unprepared! Like a fire extinguisher is to a fire, a spill kit is to an oil or chemical spill. Choose the right kit for your company's needs.

x-large spill cart on wheels

This kit was designed for maximum mobility. Spill cart comes with all-terrain, 8" pneumatic wheels. Decrease your response times by having a spill cart on site. Locking clasp is optional.

PART #	DESCRIPTION	SORBENT CAPACITY
OILM7066	Oil-only	170 gallons
OILM7068	Universal	170 gallons
OILM7069	Hazmat	170 gallons
Cart Only		
OILM7067	Cart only, 44" x 44" x 29.5" ID, 8" Pneumatic Wheel	

Kit Contents:

- 150 Pads (15" x 19")
- 18 Socks (3" x 10')
- 55 Socks (3" x 4')
- 17 Pillows (18" x 18")
- 200 Wipes
- 30 Disposal Bags w/Ties
- 2 Pairs Nitrile Gloves
- 1 Emergency Response Guidebook

large spill cart on wheels

PART #	DESCRIPTION	SORBENT CAPACITY
OILM7092	Oil-only	108 gallons
OILM7093	Universal	108 gallons
OILM7094	Hazmat	108 gallons

OILM7095	Cart only, 43.5" x 29" x 34", 4" Rubber Casters	

Kit Contents:

- 100 Pads (15" x 19")
- 24 Socks (3" x 4')
- 12 Socks (3" x 12')
- 8 Pillows (18" x 18")
- 5 Disposal Bags w/Ties
- 1 Pair Goggles
- 1 Pair Nitrile Gloves
- 1 Emergency Response Guidebook

50 gallon mobile spill kit

50 gallon polyethylene container with hinged lid helps to protect absorbents from moisture, dirt, and damage; hinged lid provides easy access. Packed with a wide variety of absorbents (socks, pads, pillows, and loose absorbents). Ideal for quick response to spills anywhere in your plant. Heavy-duty 8" rubber wheels roll easily over any terrain, indoors or out. Built-in handles allow you to steer this kit easily.

Kit Contents:

- 50 Pads (15" x 19")
- 4 Socks (3" x 4')
- 1 Sock (3" x 10')
- 2 Pillows (18" x 24")
- 5 Disposal bags w/Ties
- 1 Bag of granular cellulose

SPILL KITS

tote bag spill response kit

This durable tote bag kit is constructed of double-wall, vinyl-coated canvas that stands up to demanding industrial environments. Makes responding to small spills on the go a quick and easy task.

Kit Contents:

- 1 Zipper Tote Bag
- 15 Pads (15" x 19")
- 3 Socks (3" x 4')
- 1 Repair Putty Stick
- 1 Tychem QC Protective Suit
- 1 Pair Chemical Goggles
- 1 Pair Nitrile Gloves
- 5 Disposable Bags w/Ties

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING	WEIGHT
OILM7107	Universal Tote Bag Kit	absorbs up to 6 gallons	1	11 lbs.

wall mount cabinet spill kit

Spill cabinet is manufactured with rugged, welded-steel construction and easily installs on wall. The see-through front panel allows you to check absorbent inventory levels quickly and easily.

Large Wall Mount Kit Contents:

- 80 Pads (15" x 19")
- 2 Socks (3" x 4')
- 3 Socks (3" x 10')
- 8 Pillows (18" x 24")
- 10 Disposal Bags w/Ties
- 50 DRC Wipers
- 1 Pair Nitrile Gloves
- 1 20" W x 12.25" D x 32.25" H Cabinet

Small Wall Mount Kit Contents:

- 10 Pads (15" x 19")
- 2 Socks (3" x 4')
- 2 Socks (3" x 10')
- 3 Pillows (9" x 15")
- 5 Disposal Bags w/Ties
- 50 DRC Wipers
- 1 Pair Nitrile Gloves
- 1 13.75" W x 12.75" D x 30" H Cabinet

SPILL KITS

Kit Contents:

- 100 Pads (15" x 19")
- 12 Socks (3" x 4')
- 8 Socks (3" x 12')
- 8 Pillows (18" x 18")
- 3 Disposal Bags w/Ties
- 1 Emergency Response Guidebook
- 1 Pair Nitrile Gloves

Kit Contents:

- 50 Pads (15" x 19")
- 10 Socks (3" x 4')
- 5 Socks (3" x 10')
- 6 Pillows (18" x 24")
- 3 Disposal Bags w/Ties
- 1 Emergency Response Guidebook
- 1 Pair Nitrile Gloves

Kit Contents:

- 50 Pads (15" x 19")
- 12 Socks (3" x 4')
- 8 Pillows (18" x 18")
- 1 Pair Goggles
- 5 Disposal Bags w/Ties
- 1 Emergency Response Guidebook
- 1 Pair Nitrile Gloves

Kit Contents:

- 25 Pads (15" x 19")
- 4 Socks (3" x 4')
- 4 Pillows (18" x 24")
- 3 Disposal Bags w/Ties
- 1 Emergency Response Guidebook
- 1 Pair Nitrile Gloves

Kit Contents:

- 15 Pads (15" x 19")
- 4 Socks (3" x 4')
- 1 Sock (3" x 12')
- 2 Pillows (18" x 18")
- 3 Disposal Bags w/Ties
- 1 Spill Caution Sign
- 1 Emergency Response Guidebook
- 1 Pair Nitrile Gloves

SPILL KITS

truck spill kits

The compact design of our trucker spill kit allows for easy storage behind the seat or in a storage compartment. The kit allows drivers to act quickly when responding to a spill. Kits also come in a plastic pail that can be stored outside of the cab for easy access. Truck mounts are available for 6.5 gallon kits in a pail.

Poly-Zip Bag and Bucket Kits Contents:

- 10 Pads (15" x 19")
- 3 Socks (3" x 4')
- 2 Disposal Bags w/Ties
- 1 Pair Nitrile Gloves

PART #	DESCRIPTION	SORBENT CAPACITY
SK5-O	Oil-only, in 6.5 Gallon Pail	5 gallons
SK5-U	Universal, in 6.5 Gallon Pail	5 gallons
SKB-O	Oil-only, in Clear Poly Bag w/Zipper	5 gallons
SKB-U	Universal, in Clear Poly Bag w/Zipper	5 gallons
OIL716	Truck Mount	N/A

foil bag response kit (heat-sealed)

Foil Bag Kit Contents:

- 15 Pads (15" x 19")
- 3 Socks (3" x 4')
- 2 Disposal Bags w/Ties
- 1 Pair Nitrile Gloves
- 1 Pair Goggles

Heat-sealed kits allow you to determine if the kit was used or not. Economical and space-saving. This kit is packed in a puncture-proof, water and UV resistant sealed bag and is intended for single use. Packed 5 kits/case.

PART #	DESCRIPTION	ABSORPTION
SKFB-O	Oil-only Foil Kit	absorbs up to 5 gallons
SKFB-U	Universal Foil Kit	absorbs up to 5 gallons
SKFB-H	Hazmat Foil Kit	absorbs up to 5 gallons

emergency spill sack

Portable spill kit packed in a reusable drawstring sack.

Kit Contents:

- 10 Pads (15" x 19")
- 2 Socks (3" x 4')
- 1 Pillow (18" x 18")
- 2 Disposal Bags w/Ties
- 1 Pair Nitrile Gloves

PART #	DESCRIPTION	ABSORPTION
OILM7076	Universal Spill Sack	absorbs up to 7 gallons
OILM7077	Oil-only Spill Sack	absorbs up to 7 gallons

SPILL KITS

A "MUST HAVE"
FOR ANY
MARINA WITH A
FUEL DOCK!

marine spill kit

Response time is crucial when it comes to cleaning a fuel or oil spill on water. The faster you respond, the easier it is to minimize damage to the environment and avoid costly fines. This kit provides you with almost everything you need to become an efficient first responder.

Kit Contents:

- 65 Gallon Overpack
- 75 Oil-only Pads (15" x 19")
- 4 Booms (5" x 10')
- 4 Pillows (18" x 24")
- 3 Disposal Bags w/Ties

PART #	DESCRIPTION	SORBENT CAPACITY
OILM7065	Oil-only	62 gallons

marine dock box spill kit

Sometimes you don't want your spill kit to stand out as much as our "safety yellow" commercial version. This kit comes packed in a high-quality dock box that can be secured to the dock.

Kit Contents:

- 1 Dock Box
- 100 Pads (15" x 19")
- 4 Booms (5" x 10')
- 4 Pillows (18" x 18")
- 1 Bag Absorbent W Granular (10 lbs.)
- 1 Brick of Rags (5 lbs.)
- 1 Folding Shovel
- 5 Disposal Bags w/Ties
- 1 Pair Goggles
- 2 Pairs Nitrile Gloves
- 1 Emergency Response Guidebook

PART #	DESCRIPTION	SORBENT CAPACITY
OILM7083	Oil-only	86 gallons

overpack covers

Hi-viz overpack cover protects spill response supplies indoors and out. Impermeable material blocks water, dust, and debris, as well as UV light that can damage polypropylene sorbents.

PART	DESCRIPTION	PACKAGING
CON0210	Large Overpack Cover, fits 65 and 95 gallon overpacks	1/package
CON0211	Small Overpack Cover, fits 20, 30, and 55 gallon overpacks & drums	1/package

SPILL KIT REFILLS

Why buy a new spill kit every time you use it? Instead of buying the complete kit, just purchase the kit contents. Spill kit contents come packed in a cardboard box.

PART #	DESCRIPTION
	X-Large Spill Cart on Wheels
OILM7066-R	X-Large Spill Cart on Wheels, Oil-only Refill
OILM7068-R	X-Large Spill Cart on Wheels, Universal Refill

SPK20-H-R	20 Gallon Hazmat Refill

SPECIALTY SPILL KITS & ACCESSORIES

acid spill kit

Ideally used in battery shops or any area prone to leaking caustics. Have one on hand in case of an emergency. Absorbs up to 5 gallons.

Kit Contents:

1 2-lb. Shaker Neutralizers	1 Scoop
5 Acid Absorbing Pads	1 Pair Goggles
2 Socks	1 Pair Nitrile Gloves
2 Disposal Bags w/Ties	

PART #	DESCRIPTION	WEIGHT
OILM7005	Acid Spill Kit	9 lbs.

wall mount chemical/solvent kit

This kit includes everything needed to neutralize and clean up chemicals and solvents. Mount this kit or take it with you to a spill. This spill treatment kit neutralizes and solidifies caustic spills and will absorb organic solvents.

Kit Contents:

1 Wall Mount Cabinet	1 Shaker Solvent Neutralizers
5 Absorbent Pads (15" x 19")	1 Scoop
1 Sock (3" x 4')	1 Pair Goggles
1 Shaker Acid Neutralizers	2 Disposal Bags w/Ties
1 Shaker Base Neutralizers	2 Pairs Nitrile Gloves

PART #	DESCRIPTION	WEIGHT
OILM7021	Wall Mount Spill Kit	30 lbs.

mercury spill kits

Used to clean mercury-based spills.

Large Kit Contents:

270g Amalgamation Powder
250g Indicator Powder
1 lb. Vapor Suppressor
Shaker Bottle
1 Aspirator Bottle
1 Waste Collection Bottle
1 Mixing Tub w/Spatula
1 Chemical Sponge
1 pair Nitrile Gloves
1 Disposal Bag w/Tie
1 Wisk on Pan

Small Kit Contents:

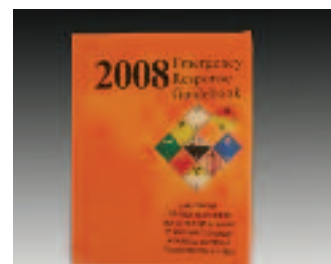

500g Amalgamation Powder
2 Mercury Sponges
1 Containment Jar

PART #	DESCRIPTION	WEIGHT
OILM7006	Large Mercury Spill Kit	5 lbs.
OILM7007	Small Mercury Spill Kit	2 lbs.

emergency response guidebook

Anyone responding to spills should have one. This book provides important information regarding various kinds of spilled chemicals and liquids.

PART #	DESCRIPTION
OILM001	Emergency Response Guidebook

3-D spill response equipment sign

Mounts on wall in your spill kit location area.

PART #	DESCRIPTION	SIZE
OILM7096	Spill Response Equipment Sign, Stand-Out Sign	14" L x 9" H

MINERAL-BASED GRANULARS

Oil-Dri™

All-purpose floor absorbent. This clay-based product is packaged in poly bags to protect against moisture.

Floor-Dry

Contains millions of natural microscopic diatom “sponges.” Great, dust-free oil absorbent. Excellent lab pack media. A 20-lb. bag of Floor-Dry will absorb more than a 50-lb. bag of clay. All-purpose absorbent absorbs most liquids.

perlite

Perlite is a nontoxic, nonflammable, lightweight, environmentally safe and friendly absorbent that can absorb and hold most liquids, while leaving little or no residue. Less than half a pound of Perlite can completely absorb one quart of motor oil without leaving any residue to clean up. Clay, earth, and sand products require 15 pounds of material to absorb the same amount and would leave a slippery residue.

vermiculite

Vermiculite is used as a lightweight filler, liquid absorbent, paint filler/texturing agent, and liquid waste solidification agent. Used during shipping and lab packing. Can be used on all liquids.

PART #	DESCRIPTION	PACKAGING	BAGS/PALLET
OIL040	Oil-Dri™ Floor Absorbent	40 lb. bag	50
OIL046	Floor-Dry, Diatomaceous Earth	20 lb. bag	84
OIL051	Perlite, #720 Floor Absorbent	25 lb. bag	30
OIL052	Vermiculite	16 lb. bag	30

BIODEGRADABLE GRANULARS

cellulose

A universal/maintenance sorbent made from recycled cellulose. It absorbs six times more than clay. Other benefits: noncarcinogenic, lightweight, low dust and nonabrasive. Absorbs both oil and water.

Absorbent W

Made from 100% recycled cellulose pulp, treated to absorb oil only — not water. Hydrocarbons are absorbed into the fibers and will not leach or drain. Ideal for removing contaminants from water.

Dri-Zorb™

All-natural coarse corn cob is a great replacement for clay. Use this in most industrial applications. A great absorbent for cutting oils, greases, water, etc. This is not intended for use with aggressive fluids.

peat moss

A natural oil-only sorbent that absorbs oil on land or hard surfaces. Made of biodegradable peat moss, which has a natural affinity for oils. This product also can be incinerated.

Gran-sorb™

Lightweight, recycled paper waste soaks up oils, coolants, solvents, water, fuels, and antifreeze. This is a safe product because paper waste is nontoxic and nonhazardous.

Gator-sorb™

Oil Gator is an “ALL NATURAL” biocatalyst. Oil Gator does NOT contain any man-made, cultured, or genetically altered microorganisms. Oil Gator contains all the natural ingredients necessary to accelerate the indigenous microbes to a point where they will degrade unwanted hydrocarbons rapidly.

PART #	DESCRIPTION	PACKAGING	BAGS/PALLET
OILM7911	Cellulose Floor Sweep	25 lb. bag	80
OIL057	Absorbent W, Oil-only Cellulose	10 lb. bag	35
OIL055	Dri-Zorb™ Coarse Corn Cob	40 lb. bag	50
OIL056	Peat Moss, 2 ft. ³ bag	25 lb. bag	48
OIL041	Gran-sorb™ Cellulose Absorbent	30 lb. bag	65
OIL059	Gator-sorb™	30 lb. bag	30

HYDROCARBON SOLIDIFYING POLYMERS

REMOVES
SHEEN WITH
EASE

Turn hydrocarbons into rubber!

Our HCS Polymer Boom is ideal for use in the marine environment. Perfect for use at fuel docks and marinas. The HCS Polymer Boom can be placed in scuppers on ships to prevent hydrocarbon run-off from the decks of commercial vessels and in engine rooms or bilges to remove oil from water. Booms also can be used on land applications to prevent hydrocarbons from entering storm drains.

A leap beyond absorption!

HCS polymers are used to solidify and suppress harmful vapors of sheen, gasoline, diesel, and oils, including crudes, upon contact. The by-product is a solid, rubber-like material that floats in water. Environmentally friendly, HCS polymer has been tested not harmful to aquatic life and waterfowl. The solidified by-product is 100% recyclable as raw material for rubber and plastic production or asphalt, or can be burned as fuel.

Depending on your local and state regulations, HCS polymer also can be disposed of in a landfill. Other uses and applications are in the utility industry for SPCC Secondary Containment, and in oil contamination removal in underground vaults and manholes; HCS polymer also can be used to filter water in storm drains or industrial waste streams.

PART #	DESCRIPTION
OIL898	HCS Polymer, 2.25" x 150' Boom, 2/drum
OIL900	HCS Polymer, 2.25" x 25' Boom, 2/case
OIL940	HCS Polymer 3" x 10' Booms, 4/bale
OIL899	HCS Polymer, 3" x 18" Bilge Sock, 20/case
OIL941	HCS Polymer 12" x 12" Pillows, 2/case
OIL901	HCS Polymer, Granular in 2.75 lb. Shaker Bottle
OIL897	HCS Polymer, Granular, 20 lb. Drum
OIL915	HCS Polymer, Granular, 100 lb. Drum

- **Nontoxic**, noncarcinogenic, noncorrosive, nonhazardous.
- **Nonbiodegradable**; encapsulated waste will not produce a hazardous leachate.
- **Solidifies up to 8 times** its own weight.
- **Versatile** — hydrophobic by nature, so you can use it to clean spills on both land and water.
- **Safe and easy disposal**

POLYMERS & NEUTRALIZERS

super absorbent aqueous polymer

Minimal Volume & Weight Increase = Lower Transportation & Disposal Costs

Used for cleaning water-based spills and sludge stabilization. Hazardous and nonhazardous industrial waste streams often must be solidified and stabilized to pass the paint filter test prior to placement in appropriately permitted landfills. Industrial solidification traditionally has involved the addition of various agents, including: kiln dust, saw dust, and portland cement. This significantly increases the volume of material requiring transportation and disposal. The polymers solidify industrial liquid wastes with a nominal volume increase and ensure that liquid wastes pass the paint filter liquids test. Given the capacity to retain substantial volumes of water, there is limited increase in weight of solidified mass, thereby minimizing transportation and disposal costs. Used in the solidification and removal of hazardous, nonhazardous, and radioactive waste, super absorbent polymers are finding new uses in industry. Our polymers have been proven to be more cost-effective than alternatives on the market. In fact, Super Absorbent Polymers can absorb up to 275 times their weight in liquid.

(Also available in super sacks.)

PART #	DESCRIPTION	PACKAGING
OIL906	Aqueous Polymer	50 lbs.

aqueous polymer/bentonite blend

Rapid solidification of aqueous sludge streams with residual organics and petroleum contamination

This is a blend of super absorbent aqueous polymers and bentonite and organo clay. The polymers will absorb up to 275 times their weight in water, and the bentonite clay will absorb the oil. This product is great for sludge stabilization prior to and during transportation. If you have hydrocarbons mixed in with your sludge, the aqueous polymer alone will not work; bentonite is needed to absorb the hydrocarbons.

PART #	DESCRIPTION	PACKAGING
OIL927	Aqueous Polymer/Bentonite Blend	50 lbs.

H2OZorb

Pull water from fuel tanks before it causes damage

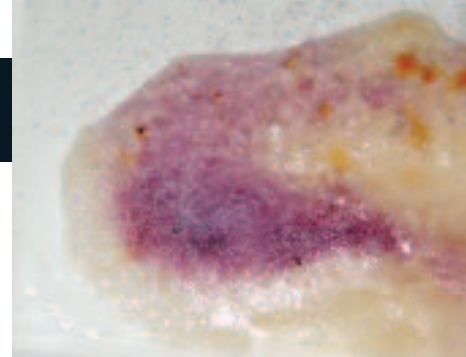

Maintain peak performance and prevent engine failure. H2OZorb sorbent pulls in water that collects in fuel tanks before it can cause damage. Helps preserve engine life and prevent frozen lines by removing water from fuel stores; also minimizes filter-clogging rust and algae. Ballast forces H2OZorb to bottom of tank, where unwanted water settles; highly absorbent filler pulls in water, but repels gas and diesel fuel. The tough nylon line makes deployment and retrieval easy. Choose from four sizes.

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING
CON2007	1" (D) x 9" (L)	3 oz. bag	1
CON2006	1.5" (D) x 12" (L)	8 oz. bag	1
CON2008	2" (D) x 12" (L)	12 oz. bag	1
CON2009	3.5" (D) x 12" (L)	36 oz. bag	1

NEUTRALIZERS

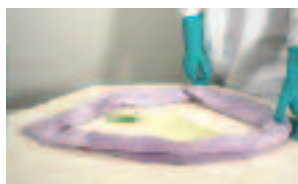

acid and base neutralizing polymers: pads, socks, pillows and granulars

In use

Acid Neutralizer, 2 lb. shaker

Acid Neutralizer, Sock

Acid Neutralizer, Pillow

Acid Neutralizer, Pads

Used to **solidify** a wide range of both acid and base spills. These polymers will neutralize and change color to let you know neutralization has taken place. Neutralizers are available in pillows, socks, pads, and granular form.

PART#	DESCRIPTION	PACKAGING	WEIGHT
OILM280020	Acid Neutralizer, 2 lb. Shaker	10/case	20 lbs.
OIL905	Acid Neutralizers	5 gallon pail	40 lbs.
OILM280025	Acid Pads, 11" x 12", 10 pads/pack	10 packs/case	7 lbs.
OILM280022	Acid Socks, 2" x 4'	4/box	6 lbs.
OILM280023	Acid Pillows, 12" x 12"	4/box	6 lbs.
OILM280030	Base Neutralizer, 2 lb. Shaker	10/case	20 lbs.
OIL903	Base Neutralizers	5 gallon pail	36 lbs.
OILM280031	Base Pads, 11" x 12", 10 pads/pack	10 packs/case	7 lbs.
OILM280032	Base Socks, 2" x 4'	4/box	6 lbs.
OILM280033	Base Pillows, 12" x 12"	4/box	6 lbs.
OIL914	Hydrofluoric Acid Neutralizers, 10 lb. bag	1/case	10 lbs.

acid neutralizing spill kit

All absorbents in this specially designed kit both **neutralize and soak up acidic spills**; cleanups are more complete and safer. Use socks to confine spill before it can spread; use pads, pillows, and granular neutralizer to soak up spill. Not for use on hydrofluoric acids.

Kit Contents:

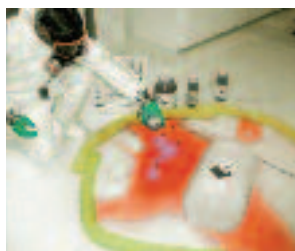

- | | |
|---|----------------------------------|
| 10 Acid Encapsulating/Neutralizing Mats (12" x 12") | 1 Splash Goggles |
| 2 Acid Neutralizing Socks (2" x 4') | 1 Pair Nitrile Gloves |
| 2 Acid Neutralizing Pillows (12" x 12") | 1 Apron |
| 2 Shaker Bottle Granular Neutralizer (2.5 lb.) | 2 Temporary Disposal Bags w/Ties |

NEW

PART #	DESCRIPTION	SORBENT CAPACITY	PACKAGING	WEIGHT
KIT1050	Acid Neutralizing Spill Kit	absorbs up to 4 gallons	1	20 lbs.

liquid neutralizers

Liquid neutralizers generate less gas and heat during neutralization than dry formulas. Use liquid formula by spraying on vertical surfaces or pouring into tight corners and hard-to-reach areas.

PART #	DESCRIPTION	WEIGHT
OIL908	Acid Neutralizers in Liquid Form, 12 quarts/case	31 lbs.

chemical classifier kit

The First Step in Spill Control: IDENTIFY THE SPILL. Chemical classifier products are the perfect method for distinguishing risks in unknown spilled liquids. Classifier strips quickly assist the responder in classifying the spill for proper treatment. Recommended product for all emergency response teams.

PART #	DESCRIPTION	WEIGHT
OILM280019	Chemical Classifier Kit	1 lb.

HgX[®] mercury decontaminant powder

NEW

For the reduction of toxic mercury vapor, HgX[®] is an inexpensive, water-soluble, nonhazardous, metallic-mercury/sulfide-converting powder with a chelating compound and dispersing agent. It reacts rapidly, forming a film over the finely divided, nearly invisible beads of mercury and reacting to produce a non-vaporizing sulfide. Further, HgX[®] keeps on working. Particles of HgX[®] left on cleaned surfaces are reactivated during subsequent cleaning.

HgX[®] is not harmful. None of its components are classified as toxic. It leaves no odor. And no allergic reactions ever have been reported, even after continuous use under various conditions.

HgX[®] is stable. It is supplied in polyethylene drums and can be stored safely up to one year without any loss of activity.

PART #	DESCRIPTION	PACKAGING
OILM7034	Mercury Decontaminant Powder	5 lb. drum
OILM7035	Mercury Decontaminant Powder	20 lb. drum

BIOREMEDIATION

Bioremediation is the process of using microorganisms to digest harmful contaminants and turn them into nontoxic compounds. Nature will heal itself, but it often takes a great amount of time. Using microbes helps speed up this process by concentrating the number of helpful microorganisms within a given area. Microscopic organisms digest hydrocarbons and transform them into harmless carbon dioxide and water. Bioremediation is a safe, natural process that produces no harmful by-products. Since it can be done on site, it is often more cost-effective than having soil or water hauled away for burning or other reclamation. It is also safer for workers, because no harmful chemicals are used in the process.

Remediact™

Remediact™ is an innovative concept in the remediation of soil saturated with hydrocarbon contaminants. It is designed to allow industry to clean up and restore soil to its pre-contaminated condition. Remediate™ is a natural absorbent that has been specially treated with hydrocarbon digesting microbes. These microbes have the ability to turn most hydrocarbons into carbon dioxide (CO₂) and water. When used according to the directions, Remediate™ safely and effectively solves your contamination problems with very little labor and equipment expense, thereby making this product an essential part of your pollution control efforts.

PART #	DESCRIPTION	PACKAGING	WEIGHT
OILM9023	5 Gallon Container, Dry (no deeper than 2-3 feet)	1 each	35 lbs.
OILM9024	5 Gallon Container, Liquid (used for 3 feet and deeper)	1 each	42 lbs.

FleetKleen™

FleetKleen™ is a new concept in the cleaning and degreasing of driveways, concrete floors, metal grating, cement, and most solid surfaces. This product utilizes bioremediation technology to literally “eat” grease, oil, and hydrocarbons off any hard surface. This process uses naturally occurring, harmless microorganisms with specially formulated biosurfactants to degrade these hydrocarbons. FleetKleen™ contains no solvents and is nonflammable. It is nontoxic, nonhazardous, noncorrosive, and noncaustic. When this product is used in a routine maintenance program, it will help to maintain a clean and safe environment while effectively and economically eliminating hazardous hydrocarbon pollution in the workplace.

PART #	DESCRIPTION	PACKAGING	WEIGHT
OILM9020	1 Gallon Container	4/case	36 lbs.
OILM9021	5 Gallon Container	1 container	44 lbs.
OILM9022	1 Gallon Container	1 each	9 lbs.

CLEANER/DEGREASERS

original

Simple Green® is one of the most versatile all-purpose cleaners you can buy! It's nontoxic and biodegradable, without harmful bleach or ammonia. Because it is a concentrate, you can use Simple Green® full-strength or add water to clean just about anything. It replaces most cleaners, detergents, degreasers, and solvents you're using now!

CONCENTRATED
CLEANER,
DEGREASER,
DEODORIZER!

PART #	DESCRIPTION	PACKAGING
SGR354	24 Ounce Bottle w/Sprayer	12/case
SGR353	1 Gallon Bottle	6/case
SGR101	5 Gallon Pail	1 each
SGR350	55 Gallon Drum	1 each

crystal

Crystal Simple Green® is formulated for critical cleaning applications that demand a fragrance-free solution. It is a highly effective, concentrated, all-purpose degreaser and cleaner. Because Crystal Simple Green® is fragrance-free, color-free, and has high rinsibility, it is an ideal and effective degreaser/cleaner for use in many industries.

PART #	DESCRIPTION	PACKAGING
SGR200	1 Gallon Bottle	6/case
SGR100	5 Gallon Pail	1 each
SGR300	55 Gallon Drum	1 each

INDUSTRIAL
STRENGTH
CLEANER,
DEGREASER!

extreme

Extreme Simple Green®, Simple Green's® new aircraft and precision cleaning product, cuts through tough, built-up grease, oil, dirt, pollution, insect residue, and impact soils. We've found no other aircraft-approved product on the market that matches Extreme Simple Green's® cleaning performance. Yet it causes no harm to aircraft structural metals, plastics, paints, or coatings.

PART #	DESCRIPTION	PACKAGING
SGR450	1 Gallon Bottle	4/case
SGR452	5 Gallon Pail	1 each
SGR451	55 Gallon Drum	1 each

safety towels

Simple Green Safety Towels® are premoistened with nontoxic, biodegradable, industrial strength Crystal Simple Green®. These multi-purpose cleaning towels are the fast, easy, safe, and effective way to remove soils from skin and industrial surfaces. Crystal Simple Green® is USDA-authorized for use in federally inspected meat and poultry plants. Colorless and odorless, both nonabrasive and abrasive sides.

PART #	DESCRIPTION	PACKAGING
SGR1000	Simple Green Safety Towels®	75 wipes/bucket, 6 buckets/case

Simple Green® is on the U.S. Environmental Protection Agency's National Contingency Plan schedule as a surface-washing agent for use in oil spills occurring in open waterways.

Red Alert DrainProtector™ II

This DrainProtector™ is red in color and, unlike the Original DrainProtector,™ it's reversible. Either side can be used to form a tight seal to block out liquids. The lighter weight makes it easier to respond in an emergency and is less expensive.

PART #	DESCRIPTION	WEIGHT
OIL812	18" x 18", square	4 lbs.

OIL805	2" Conical Plug	1	2 lbs.
OIL806	3" Conical Plug	1	2 lbs.
OIL804	4" Conical Plug	1	3 lbs.
OIL807	Conical Plug Kit	3	8 lbs.

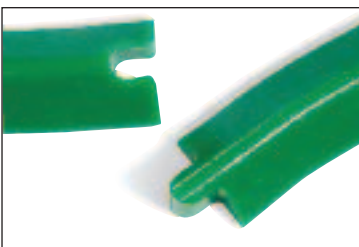

barrel patch

Seals leaks fast on any 55 gallon drum. Use the 11' strap for larger tanks. Tough nylon belt fits around drums. Easy-to-use, ratcheting buckle ensures a tight seal. Simply place over the barrel, align patch over leak, and tighten. Cleans easily with soap and water.

PART #	DESCRIPTION	SIZE	WEIGHT
OIL814	Barrel Patch	1" x 5" x 7", 11' strap	4 lbs.
OIL820	Barrel Patch	1" x 5" x 7", 6' strap	3 lbs.

spill dams

Contain and divert spills before contamination takes place. Made out of the same durable polyurethane as the drain covers, these dikes will temporarily bond to any smooth surface. Available in large and small. Use the connector to contain larger areas.

PART #	DESCRIPTION	WEIGHT
Spill Dams		
OIL796	Small Connectable Spill Dam 10' l x 2 1/4" w x 1 3/8" h	13 lbs.
OIL798	Original 10' Spill Dam 10' l x 3 3/4" w x 2 1/4" h	30 lbs.
Spill Dam Connectors		
OIL799	Use connectors to connect original spill dams for more coverage.	

tall spill dams

The taller version of the spill dam is used to contain and divert larger volumes of liquid. Flexible polyurethane construction is nonabsorbent and chemical-resistant. Easily cleans up with soap and water for repeated use. Built-in connectors allow you to attach them end to end.

PART #	DESCRIPTION	SIZE	WEIGHT
OILM7378	Tall Spill Dam	5' x 4" x 4.5"	16 lbs.

plug 'n' dike tank repair compound

Seals off fuels, solvents, and many other chemicals. Seals immediately and sticks to dirty, crumpled surfaces, even with the fluid flowing out.

PART #	DESCRIPTION	PACKAGING	WEIGHT
OILM9100	Tank Repair Compound	1 jar	1 lb.
OILM9101*	Tank Repair Compound	5 gallon pail	48 lbs.
*In powder form, mix and make your own 1 lb. jars.			

epoxy putty stick

Repair leaking pipes. Simply pinch off the amount desired, knead to a uniform gray, and press into place.

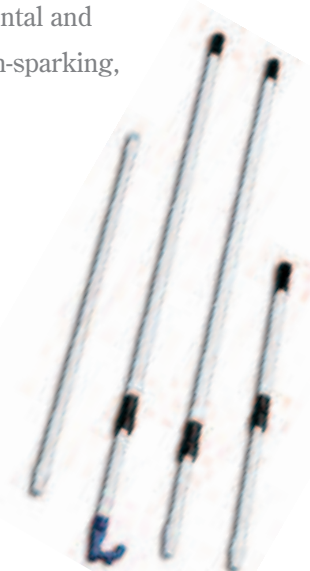

PART #	DESCRIPTION	PACKAGING	WEIGHT
OILM9103	Epoxy Putty Stick, 7" x 7/8" diameter	12/box	4 lbs.

non-sparking and chemically resistant tools

Specifically designed for spill kits and environmental and industrial cleanup applications, these tools are rugged, non-sparking, and chemically resistant.

PART #	DESCRIPTION	WEIGHT
Collapsible Shovels		
OILM7314	2-Piece Shovel, 10.5" x 14" x 38.5"	2 lbs.
OILM7316	Economy Blade Spill Kit Shovel, 2-piece, 10" x 12" x 24"-36"	2 lbs.
Scoops		
OILM7313	Non-Sparking/Polypropylene, large scoop, 82 oz.	1 lb.
OILM7307	Non-Sparking/Polypropylene, small scoop, 32 oz.	1 lb.
Boat Hook		
OILM7332	Extension Utility Handle with Fixed Hook, 6' 10" x 11' 9"	3 lbs.

STORM WATER MANAGEMENT

drain guard

Storm water drain guard is designed for use in industrial facilities, construction sites, and parking lots. Contains an oil-absorbent pillow that removes oils and greases from water flow as it passes through the drain guard. Nonwoven fabric removes dirt, sand, and other sediments from storm water. Absorbs up to .87 gallons of oil and holds up to 40 pounds of sediment.

PART #	DESCRIPTION	WEIGHT
OILM7322	Drain Guard, Oil & Sediment Model, 48" x 36" x 18"	2 lbs.

Helps comply with NPDES, 40 CFR 122.26 (1999).

drain guard, curb-insert style

For use with **combination catch basins** with a street grate and curb opening. Heavy-duty tension rod secures drain guard inside curb inlet — stopping sediment and other contaminants from entering curb portion of storm drain. Fits grate sizes up to 40" x 40" and curb inlets up to 60" wide.

PART #	DESCRIPTION	WEIGHT
OILM7326	Drain Guard, Curb-Insert Style, Oil & Sediment Model, Inlets 24"-42"	4 lbs.
OILM7330	Drain Guard, Curb-Insert Style, Oil & Sediment Model, Inlets 42"-60"	5 lbs.

Helps comply with NPDES, 40 CFR 122.26 (1999).

gutter guard

Keep sediment and other debris out of curb inlets. Made of 100% recycled materials. Can be reused — simply remove, clean, and store properly until needed again. Built-in overflow ports allow water to pass through during major rainfall events. Quick installation — simply place in front of curb inlet, ensuring at least a 12" overlap on each side.

PART #	DESCRIPTION	WEIGHT
OILM7327	Gutter Guard, 9" x 8', 1/pack	19 lbs.

Helps comply with NPDES, 40 CFR 122.26 (1999).

SORBENT DISPOSAL OPTIONS & POLY PRODUCTS

After cleaning a spill, dispose of your used absorbents in either a 55-gallon steel drum lined with a 6 mil poly bag or use our cost-effective, corrugated waste container. This heavy-duty box will hold the equivalent of four 55-gallon drums. This will save you money in transportation and disposal. Corrugated waste containers are rated for packing groups I, II, and III.

corrugated waste containers and drums

PART #	DESCRIPTION	PACKAGING
OIL762	Corrugated Box, 8 Mil Liner, Pallet, & Nail Kit	35/pallet
OIL760	55 Gallon Steel Drum, Open Head, DOT Approved	1
OIL761	55 Gallon Steel Drum, Closed Head, DOT Approved	1

latching drum lids

These lids help you lock down solids and comply with closed container regulations. Latching handle easily opens and closes in one simple, single-handed operation; there is no need to remove and reattach drum ring, lid, or bolt to access drum content. Fits 55-gallon steel drums; they are easy to install and even easier to use.

PART #	DESCRIPTION	PACKAGING
OIL754	55 gallon Latching Drum Lid	1
OIL752	Replacement Gasket for Latching Drum Lid	1

poly sheeting and poly liners

PART #	DESCRIPTION	PACKAGING
Poly Sheeting		
OILM9500	6 Mil Poly Sheeting, 20' x 100'	58 lbs.

PERSONAL PROTECTION

nuke boots

Nuke Boots are heavyweight latex shoe covers. These highly stretchable latex rubber overboots go on easily over shoes. Hazmat boots are slip-on shoe covers for controlling the spread of hazardous materials. Protect your boots and yourself against worksite debris. Economical enough for one-time use, but durable enough for repeat wear. Heavily textured soles give reliable traction on wet, slippery surfaces.

PART #	DESCRIPTION	SIZE	PACKAGING
PCL0583	Latex Nuke/Chicken Boots	L	50/case
PCL0585	Latex Nuke/Chicken Boots	XL	50/case
PCL0584	Latex Nuke/Chicken Boots	2X	50/case

slush boots

Wear **slush boots** over your shoes when sloshing around in wet, messy environments.

PART #	DESCRIPTION	SIZE
PCL0587	Slush Boots	11
PCL0588	Slush Boots	12
PCL0589	Slush Boots	13
PCL0586	Slush Boots	14

dust masks

Disposable dust masks provide relief from irritation of nontoxic, nuisance dusts.

PART #	DESCRIPTION
Dust Masks	
PCL0710	Masks, 50/box, 20 boxes/case

chemical goggles

Designed for chemical splash application, features a clear vinyl body and a fogless lens. Meets ANSI Z87.1+ standards.

PART #	DESCRIPTION
Chemical Goggles	
PCL0976	Clear Goggles
PCL0978	Clear Goggles, Anti-Fog Lens

safety glasses

Safety glasses are ANSI-approved with adjustable temple, clear lens, black frame. Other colors are available — call for details.

PART #	DESCRIPTION	WEIGHT
PCL0709	Clear Lens, Black Frames	2 lbs.

PERSONAL PROTECTION

pvc

PVC-coated gloves provide durable protection from grease, liquids, and abrasion. They are ideal for working outside in the rain or handling petroleum-based solvents.

PART #	DESCRIPTION
GL01217	PVC, Black, 12", Rough, Jersey Lining

oilmen

PART #	DESCRIPTION
GL01221	Oilmen Gloves w/Safety Cuff

Oilmen gloves with safety cuff. Orange in color for high visibility. Rough texture for a better grip. Flock-lined for warmth in the winter. Rugged PVC material protects against oils and other hydrocarbon-based liquids.

blue full-dipped nitrile

PART #	DESCRIPTION
GL01049	Blue Full-Dipped Nitrile w/Safety Cuff

Blue full-dipped nitrile gloves with safety cuff. Jersey-lined for added comfort. Nitrile gloves are used for oils and chemicals.

leather palm with safety cuff

PART #	DESCRIPTION
GL00500	Leather Palm w/Safety Cuff

Leather palm with safety cuff. Use for a variety of applications. Not for use with liquids.

13" green nitrile gloves

PART #	DESCRIPTION
GL01055	13" Green Nitrile Unsupported Gloves

13" green nitrile unsupported gloves, unlined with straight cuff. These are used to protect against oil and chemicals.

disposable nitrile gloves

PART #	DESCRIPTION
GL01059	Disposable Nitrile, 100/box, XL
GL01065	Disposable Nitrile, Powder-Free, 100/box, XL

Nitrile gloves offer excellent protection against certain solvents, chemicals, caustic compounds, oils, animal fats, and blood products. Disposable nitrile gloves are available in different powder formulations for both laboratory and industrial settings.

Tyvek® suits

With Tyvek®, you don't have to compromise. That's because Tyvek® delivers the best balance of protection, durability, and comfort. Made using a proprietary manufacturing process, Tyvek® features an inherent barrier. So, unlike other protective apparel fabrics which have either a film or coating that can be easily scratched or worn away, Tyvek® provides barrier through the entire fabric.

polycoated Tychem® suits

Tychem® QC — a DuPont™ Tyvek® protective fabric coated with 1.25 mils of polyethylene. It is reliable protection for minor chemical spills and where there is potential for mist or light splash. Bright yellow in color.

Available styles:

- Coverall w/Collar
- Coverall w/Elastic Wrist & Ankles
- Coverall w/Attached Hood
- Coverall w/Attached Hood & Elastic Wrists & Ankles
- Coverall w/Attached Hood & Boots & Elastic Wrists (Bunny Suit)

Available in sizes Small - 5X

Please call our office for specific part numbers and ordering details.

duct tape

PART #	DESCRIPTION	WEIGHT
TPE400	Silver, 2" x 60 yds., 24/case	41 lbs.
TPE401	Black, 2" x 60 yds., 24/case	41 lbs.

MicroMAX® suits

The MicroMAX® pattern design features a tailored pattern cut, inset sleeves, elastic back, and a double-gusseted crotch that allows unparalleled freedom of movement. What's the difference between this suit and competitive products? Competitive, non-gusseted coveralls have a crotch dropped lower to allow for reaching without ripping out, and yoke style sleeves put a seam in the

chest which is vulnerable to chemical penetration. MicroMAX® 3P Super B with the double-gusseted crotch and inset sleeves eliminates these flaws — the result being a garment that is designed to fit and is not just a larger bag. Perfect for general duty work environments, MicroMAX® utilizes three barrier layers to provide an excellent level of protection. Dirt, grease, grime, and light liquid splashes and spills are no problem for MicroMAX.® It's an excellent, low-cost alternative that provides you with high-quality protection. This is a great alternative to Tyvek® suits.

ChemMax 1® suits

ChemMax 1®

Offering quality along with durability, this cost-effective, entry level product will please distributors, safety engineers, and plant purchasing managers. Whether you are in manufacturing, environmental cleanup, or chemical handling, you can trust the ChemMax® family of products to protect your workers from harm. ChemMax® is constructed with a unique polyethylene barrier film

and a continuous filament polypropylene nonwoven. ChemMax® 1 garments bar many harmful contaminants from penetrating to inner clothing. This is a great alternative to Tychem® suits.

CON3011	Ramp for Roll Top Spill Pallets	55.5" x 28.5" x 8.75"	43 lbs.	

SpillPals

The most affordable and convenient temporary storage on the market.

The flexible-sidewall SpillPal line is the easiest to use and the most affordable hazardous material storage product on the market today. SpillPal provides incidental spill control during temporary storage of drums, machine parts, tanks, and generators. It also can be used as a washdown pad or pumping station. A great alternative to hard plastic pallets.

PART #	DESCRIPTION	WEIGHT	CONTAINS
OILM7357	2 Drum SpillPal, 2' x 4' x 4"	3 lbs.	20 gallons
OILM7358	4 Drum SpillPal, 4' x 4' x 4"	5 lbs.	40 gallons

Grates sold separately

PIPE WRAPS & HOSE SOCKS/RESCUE TAPE

pipe wraps & hose socks

“Reduce your liabilities at the source”

A variety of styles are available, such as hose connection wraps, hose end socks, and filter/nozzle socks

Hydrophobic absorbent pad with outer tarpaulin backing designed for easy application and disposal. Use hose connection wraps on hydraulic hoses for fuel and oil — two sizes are available. Use hose end socks on piping ends with cam caps, fuel delivery transport hoses, vacuum truck hoses, and utility boat fueling connections. Use filter/nozzle socks for fuel filters at stations and dispensers or fueling nozzles on trucks or stations.

PART #	DESCRIPTION	PACKAGING
CON3002	1/2" to 2" Hose Connection Wrap	1
CON3003	2" to 5" Hose Connection Wrap	1
CON3004	2" Hose End Sock	1
CON3005	3" to 4" Hose End Sock	1
CON3006	Large Filter/Fuel Nozzle Sock	1

Rescue Tape®

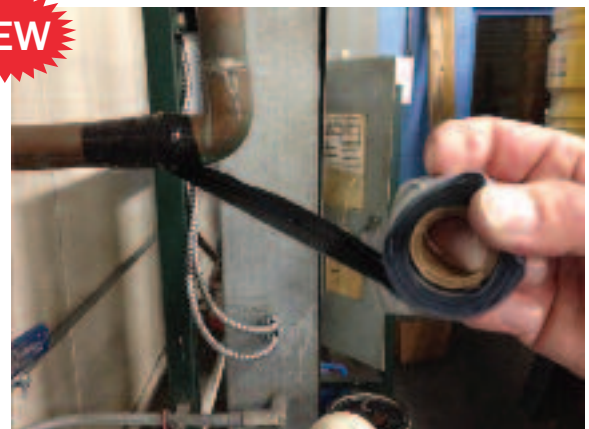

**Got a leaking hose?
Wrap it up tight with silicone tape!
Just stretch, wrap, & get rescued™
SEALS LEAKS FAST!**

950 PSI tensile strength

Resists 500° F

Insulates 8,000 volts

Resists fuels, oil, acids, solvents, salt water, road salt, UV rays

Most versatile tape on the market, even better than duct tape. Repair leaking hoses and insulated wires, or use it in place of heat shrink tubing.

This is a self-fusing silicone repair product for emergencies and all-purpose repairs. By wrapping it around and onto itself, Rescue Tape® will quickly and easily create a permanent, airtight, watertight seal in just minutes or even seconds. You can repair leaks on hoses, pipes, and air lines, or use it on electrical wiring and as shrink wrap.

PART #	DESCRIPTION	COLOR	PACKAGING

grounding wires

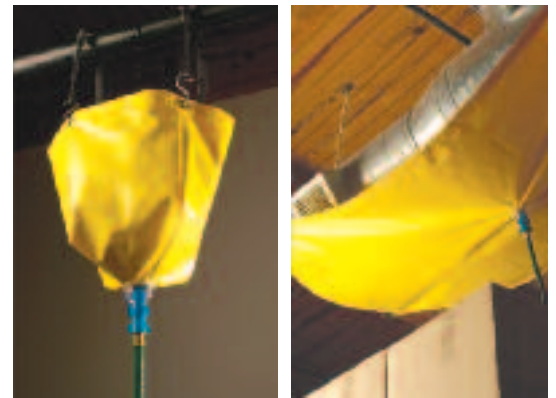

PART	DESCRIPTION
CON0020	Bonding Wires (3'), helps meet UFC Div8, Sec. 79803.

FACILITY SAFEGUARDS

drip kits

Drip Kits channel leaks and drips away from equipment and inventory with the easy-to-use Drip Kit system. Drip Kits can be used for a temporary or permanent solution to leaking pipes or roofs.

*All kits ship complete with valve, hose fitting, and four 9" rubber straps.

PART #	DESCRIPTION
CON2000	12" x 15" Pipe Kit
CON2001	5' x 5' Roof Kit
CON2002	5' x 10' Roof Kit
CON2003	10' x 10' Roof Kit

oily waste cans

Oily waste cans offer fire-safe, temporary storage of solvent, waste rags, shavings, and other materials subject to spontaneous combustion. Available in either galvanized steel or polyethylene. Cans feature self-closing lid with foot lever. OSHA-compliant cans are essential whenever solvent-soaked cloths and wiping rags are used. Available in many different sizes. **Compliance:** OSHA 29CFR 1910.108 and OSHA 29 CFR 1910.106

PART #	DESCRIPTION	CONTAINS	WEIGHT
933-FL	Poly, 16.5" x 13.5" x 16"	6 gallons	9 lbs.
935-FL	Poly, 22" x 18" x 18"	10 gallons	14 lbs.
937-FL	Poly, 22" x 18" x 21"	14 gallons	16 lbs.

PART #	DESCRIPTION	CONTAINS	WEIGHT
CON0411	Steel, 11 7/8" x 15 7/8"	6 gallons	10 lbs.
CON0410	Steel, 13 15/16" x 18 1/4"	10 gallons	13 lbs.
CON0412	Steel, 16 1/16" x 20 1/4"	14 gallons	16 lbs.
CON0413	Steel, 18 3/8" x 23 7/16"	21 gallons	22 lbs.

butt cans

SafeSmoker Cigarette Receptacle is made of high-density polyethylene with UV inhibitors and a galvanized steel collection bucket inside. Design restricts oxygen to quickly extinguish burning butts. Rain-protective design keeps water out and eliminates waste smells. Butt Cans are ideal for "designated smoking areas" inside or outside. Features poly tube and galvanized can base. Yellow for in-plant use and beige for office or commercial areas.

PART #	DESCRIPTION	SIZE	WEIGHT
1208BEIGE	SafeSmoker, Beige, Poly	17.25" dia. x 43.25" h	10 lbs.
1206BEIGE	SafeSmoker, Beige, Poly	15.25" dia. x 37.75" h	7 lbs.
1202BEI	Metal/Poly Butt Cans, Beige	12" x 35", 2 gallons	5 lbs.
1202	Metal/Poly Butt Cans, Yellow	12" x 35", 2 gallons	5 lbs.

CHEMICAL APPLICATION GUIDE

The following guide is a list of common industrial fluids. Choose the sorbent that best suits your needs.

How To Read Regulations

The Code of Federal Regulations (CFR) is the printed rules of 50 different federal departments. However, our focus is primarily on OSHA (Occupational Safety and Health Administration), EPA (Environmental Protection Agency), and DOT (Department of Transportation). Each volume of the CFR is updated once each calendar year and is issued on a quarterly basis.

The first number is referred to as “the title” – this will tell you which agency’s regulations you’re looking into:

29CFR = OSHA

40CFR = EPA

49CFR = DOT

Let’s take the example of Regulation # 29 CFR 1910.22(a)(2):

If you were to compare this to looking at a book, the 29CFR might be the title of the book, the 1910 could be the chapter, the 22 could be the page and the (a)(2) could be the paragraph. The more specific this line is, the better chance you’ll find the exact regulation in question.

You can find the specific language of the regulation by going to the GPO (Government Printing Office) website at: <http://www.gpoaccess.gov/cfr/index.html>. Using the GPO site is free, whereas some companies charge service fees for looking up regulations. The index site linked above will take you to a page where you can just enter the citation you need and it will find it for you. However, be aware that it will show you the entire page and you have to find the specific citation line. You should be able to find what you’re looking for if you practice looking at these.

Because there is so much information packed into each title, you really should try to get down to as specific a line as possible. For example, if you are just looking for “CFR 29,” that’s a LOT of information that covers a wide range of scenarios — so the more detailed you can get, the better it will help someone understand with what they are complying. We hope to give you a good start in understanding what these regulations require, but we cannot suggest strongly enough that you read the CFR regulation in its entirety to make sure you are compliant with all aspects of the regulations language before proceeding.

29 CFR – OSHA (Occupational Health & Safety Administration)

29 CFR 1910

This section applies to all permanent places of employment, except where domestic, mining, or agricultural work only is performed. Measures for the control of toxic materials are considered to be outside the scope of this section.

29 CFR 1910.22(a)(2)

SUMMARY: Floors in your workplace should be “maintained in a clean and, so far as possible, a dry condition.”

29 CFR 1910.107(b)(3)

SUMMARY: If floors in a spray booth or work area are combustible, they “shall be covered with noncombustible material of such character as to facilitate the safe cleaning and removal of residues.”

29 CFR 1910.107(g)(2)

SUMMARY: OSHA requires spraying areas to be “kept as free from the accumulation of deposits of combustible residues as practical.”

PRODUCTS THAT HELP YOU COMPLY

Any of our pads or rolls will help maintain clean floors and safe walking areas. We highly recommend our Fine Fiber line if you want to protect the floors in areas where workers could be walking. Fine Fiber comes in Universal, Oil-Only, or Hazmat absorbencies. Also, we offer a full line of tough Universal Industrial Rugs in a number of weights and sizes to best fit your application. These rugs are great in areas where there is heavy foot and forklift traffic. Please check out our catalog for more information.

29 CFR 1910.120(j)(1)(vii)

SUMMARY: Under an OSHA requirement, “DOT specified salvage drums or containers and suitable quantities of proper absorbents shall be kept available and used in areas where spills, leaks, or ruptures may occur.”

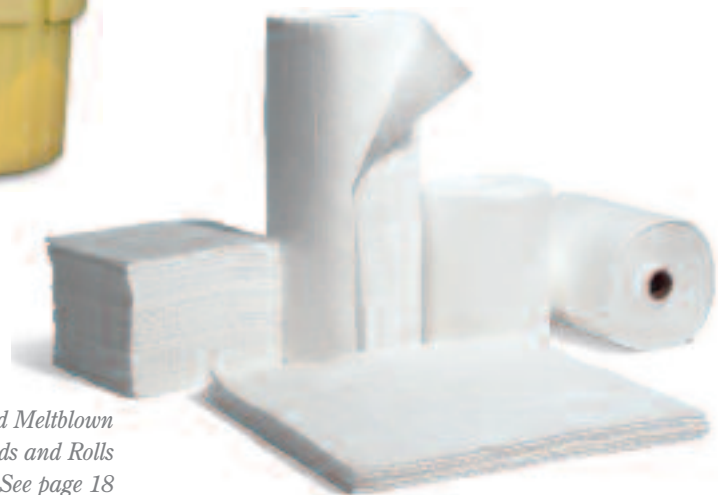

PRODUCTS THAT HELP YOU COMPLY

Some of our Overpacks are DOT-approved and X-rated for use as salvage drums. Our Overpacks are sturdy and chemical-resistant for years of use. We also carry complete Spill Kits packaged inside the same certified Overpacks. We offer kits in trucker size, 20 gallon, 50 gallon, 65 gallon and 95 gallon. Standard kits include pads, socks, gloves, goggles, and more.

*Spill Kit
See page 38*

*Standard Meltblown
Pads and Rolls
See page 18*

REGULATORY INFORMATION

40 CFR – EPA (Environmental Protection Agency)

40 CFR 263 40 CFR 264.175

SUMMARY: Hazardous waste containment systems must be free of structural cracks or gaps, be designed to keep spilled liquids from remaining in contact with the container, prevent run-on, and “have sufficient capacity to contain 10% of the volume of the containers, or the volume of the largest container, whichever is greater.” For example, if you have four 55-gallon drums, your secondary containment would need to hold at least 55 gallons total. (10% of the total would be 55 gallons x 4 drums = 220/10 = 22 gallons. However, 100% volume of the largest one is 55 gallons. Since you must take the greater, your minimum sump capacity is 55 gallons.)

PRODUCTS THAT HELP YOU COMPLY

This particular regulation is one that we see the most. We carry a number of secondary containment options including 2-Drum and 4-Drum Spill Pallets, which can hold up to 1,500 lbs. and sump 90 gallons! Check out our full line in our catalog.

*4-Drum Low Profile Pallet
with Ramp
See page 62*

REGULATORY INFORMATION

40 CFR – EPA (Environmental Protection Agency)

40 CFR 112

Spill Prevention Control and Countermeasures (SPCC) planning requirements state that facilities subject to these regulations must have written plans in place discussing the products, countermeasures, and procedures that are in place or will be taken by the facility to prevent discharge of oil into waters of the United States. Facilities that store 1,320 gallons of fuel or more must conform to the SPCC Regulations.

40 CFR 112.7(c)(1)(vii)

SUMMARY: Facilities that have the potential to pollute waterways must have “appropriate containment and/or diversionary structures or equipment to prevent discharge oil from reaching a navigable water course.”

40 CFR 112.7(c)(1)(iv)

SUMMARY: Booms and other barriers may be considered as part of “appropriate containment and/or diversionary structures or equipment to prevent a discharge.”

PRODUCTS THAT HELP YOU COMPLY

We carry a number of items designed both to react to a spill as well as to prevent one from happening. Some of our most popular are our Sock/Net Booms. These are cylindrical tubes filled with absorbent polypropylene. They have netting on the outside with hardware made to have ends slightly overlap one another so as not to allow for any gaps that oil could slip through.

The polypropylene will resist water while absorbing oil, allowing the boom to float on top of the water. Additionally, some customers like to use our Containment Boom to protect any amount of area from oil discharges. The 12" skirt on these nonabsorbent booms hangs below the waterline to prevent oil-based liquids from getting underneath the boom and possibly contaminating more water. You can find details on these and any other spill control products in our catalog.

40 CFR 263

These regulations establish standards that apply to persons transporting hazardous waste within the United States if the transportation requires a manifest under 40 CFR part 262.

40 CFR 263.30(a)

SUMMARY: In the event of a spill, transporters must “take appropriate immediate action to protect human health and the environment.”

40 CFR 263.31

SUMMARY: Transporters “must clean up any hazardous waste discharge that occurs during transportation...so that the hazardous waste discharge no longer presents a hazard to human health or the environment.”

*See Spill Kits
pages 10, 35 – 42*

PRODUCTS THAT HELP YOU COMPLY

We carry a wide range of Spill Kits designed purposely for immediate access and usage in the event of a spill. One of the many kits we offer is our trucker spill kit. This kit is made specifically with truck drivers in mind. The kit comes in Universal, Oil-Only, and Hazmat absorbencies. The standard trucker's kit contains everything you need to handle a spill, including pads, socks, gloves, goggles, and temporary disposal bags, and comes packaged in a zippered bag small enough to fit right behind the driver's seat of the truck cab. These kits also can be customized to fit your specific needs.

49 CFR – DOT – Department of Transportation

49 CFR 173

This section deals largely with transporting hazardous materials and waste by air, highway, rail, or waterways.

49 CFR 173.3(c)(1)

SUMMARY: If a container of hazardous waste is damaged or leaking, it can be placed in a compatible salvage drum that meets UN criteria for shipping.

49 CFR 173.3(c)(2)

SUMMARY: When a salvage drum is used to overpack a damaged container, the area between the container and the salvage drum must have “sufficient cushioning and absorption material to prevent excessive movement of the damaged package and to eliminate the presence of any free liquid at the time the salvage drum is closed.” The packing material must also be compatible with the hazardous material.

49 CFR 173.12(b)

SUMMARY: A container used for lab packing must be “a UN 1A2 or UN 1B2 metal drum, a UN 1D plywood drum, a UN 1G fiber drum or a UN 1H2

plastic drum tested and marked at least for the Packing Group III performance level for liquids or solids.”

49 CFR 173.12(b)(2)(iv)

SUMMARY: When lab packing, “inner packaging’s... must be surrounded by a chemically compatible absorbent material in sufficient quantity to absorb the total liquid contents.”

PRODUCTS THAT HELP YOU COMPLY

Some of our containers are certified as BOTH Overpacks and Salvage Drums. They are UN X Rated to carry the most

hazardous chemicals allowed. Our Overpacks also come with a screw-on top for a secure closure for transportation. We offer a variety of Overpack/Salvage Drums in sizes ranging from 20 gallons up to 95 gallons. You can see the complete array in our catalog.

DIFFERENCE BETWEEN AN OVERPACK AND SALVAGE DRUM

It may be hard to tell just by looking at them, but there is a difference between Salvage Drums and Overpacks. An Overpack is simply a container that goes OVER or AROUND another container. A Salvage Drum, however, meets more stringent standards for transporting materials. Both Overpacks and Salvage Drums must pass requirements for size and liquid volume, as well as stack and drop tests. Salvage Drums must then pass an additional pressure test. Salvage Drums also must have the term “Salvage” or “Salvage Drum” stamped onto the drum itself in order to properly qualify as a Salvage Drum.

Warranty and Disclaimer: There are no express warranties which extend beyond the description on the face hereof. Seller disclaims any implied warranties of merchantability or of fitness for any particular purpose. Since seller cannot control the use of its products after their resale, seller will not be responsible for any consequential or indirect damages. Rather, seller will, at its option, either replace the products sold or refund the purchase price. No warranties will apply if the products are in any way altered or modified after delivery by seller.

Handling, Storage, and Disposal: Handling, storage, and disposal of products must be carried out in compliance with all local, state, and federal regulations. Various sorbed fluids may be toxic or hazardous in nature and should be disposed of in the approved manner.

Warning: Flammable and other hazardous liquids when contaminated in any sorbent material continue to be unsafe and are subject to spontaneous ignition. Appropriate respiratory devices and protective clothing should be worn. Exercise extreme care when handling, storing, and disposing of absorbent materials containing such liquids to avoid personal injury and environmental pollution.
